NUMBER 239

WEALTHY PITTSBURGH MAN'S DEAD BODY FOUND AT CRESSON

Alfred Kaufman, Missing From Home Since A Week Ago, Found In Swamp Near Cresson.

MAY BE A SUICIDE

Cresson, Pa., Oct. 12.—The body of a man found in a swamp between Cresson and Hogshead with a bullet wound in his head was positively identified today as that of Alfred Kaufman, a wealthy Pittsburgh real estate dealer, who disappeared from his home there about a week ago. A reward of \$5,000 had been offered for information as to his whereabouts.

Carl Kaufman, brother of the dead man, positively identified the body and after the coroner's inquest had it removed to the family home in Pittsburgh.

County Detective of Cambria county, said that every indication pointed to suicide but the members of Kaufman's family claim that due to the absence of powder marks on the body Kaufman could not possibly have shot himself. A revolver was found within a short distance of the body.

WORLD'S SERIES MELON SPLIT IS NOT SO JUICY

New York, Oct. 12.—The total receipts of the World's Series baseball games were \$605,475.00, of which \$120,564, the receipts of the second game, went to charity. Of the remaining \$484,921, the players, including the members of the two teams in each league finishing second and third, get \$247,309.71. Seventy-five per cent of this amount or about \$185,482, is to be divided among the members of the two World's Series players and the other \$61,827 to the runners up in the race.

The champion Giants get \$111,289 to split among themselves, but it is rarely that this division is an equal share, there always being some players who get a half share or possibly a third share. It is impossible, therefore, to tell accurately what the average slice will be. The prospect is, however, that each player will receive about \$4,470 for his five days' work. This is far from being a record breaker.

The losing Yanks get the balance, it being figured that each player will secure \$3,225.

Standard Oil Declares Stock Dividend And Is To Increase Capital

New York, Oct. 11.—Following the lead of other Standard Oil companies Chairman A. C. Bedford, of the Standard Oil of New Jersey, announced today that a special stockholders meeting has been called for November 8 to act upon a proposal of the directors to increase the authorized capital stock of the company from \$110,000,000 to \$625,000,000 and declared a stock dividend of four new shares of common stock or a 400 per cent stock dividend for each share of common. The par value of the new shares will be \$25, the same as at present.

The directors also explained that they felt the shareholders should be advised that in view of the requirements of the company for capital they had no purpose to increase the aggregate amount of dividend disbursement. The present dividend is on the basis of 20 per cent common stock annually.

When this new financing has been completed there will be \$500,000,000 par value outstanding. The balance of the proposed increase, about \$225,000,000, will be held in the treasury to meet such needs as may arise, it was stated.

SANTA FE LIMITED ROBBED BY LONE BANDIT IN KANSAS

Kansas City, Mo., Oct. 12.—The California Limited, one of the crack passenger trains of the Santa Fe, was robbed last night just outside the city limits. The lone bandit, who was a negro, boarded the train as it pulled out of the yards and went thru the pullmans thoroughly and after securing the loot slowly prowled thru the balance of the coaches, on the train. The exact amount of the loot was not given by the conductor.

The first news of the hold-up was given out when the conductor threw off a note at a small way station apprising the station agent of the robbery.

The negro leaped from the fast-moving train and no trace of him could be found. The conductor was asked by railroad officials for a detailed report and this could not be secured until the limited reached the end of the division.

ALTOONA WILL BE GREATEST RAILWAY CENTRE OF NATION

Altoona, Oct. 12.—The Pennsylvania Railroad company has awarded the contract for the construction of the great new machine and erecting shop at Juniata to the McClintic-Marshall company, with offices in Pittsburgh and other cities and the work of building the structure has already been taken up by the firm.

This is the largest of the group of new buildings that will be erected by the company in Juniata under the program of improvements announced by officials during the past summer. Work on the concrete storehouse, which was started first, is now under way.

The new machine and erecting shop will be the largest yet built by the company in this vicinity and it will be 340 by 685 feet in size, built with structural steel concrete and brick, while there will be two crane runways 720 feet long, one with a span of 101 feet and the other a span of 90 feet. The framework of the building will be of steel and the walls constructed of brick.

To Be Locomotive Shop.

This shop will be used for building new locomotives and repairing old ones. Provision will be made for the accommodation of forty-nine locomotives at one time, which is equal to the total capacity of Nos. 1, 2 and 3 shops at the Altoona machine shops.

The locomotives erecting bays will have two 250-ton capacity electric traveling cranes for lifting the locomotives and six fifteen-ton capacity electric traveling cranes for the lighter work. The machine bays will have two twenty-five ton capacity electric traveling cranes, together with a number of job cranes ranging in capacity from one to eight tons.

Work has already been started in preparing the ground for the great new shop. Three big steam shovels will be used in the excavating work, two of which already are on the ground and in operation, while others will shortly be placed in service.

Hundred Engines a Month.

When the shop is completed and in operation it will have a capacity of 100 engines per month. It is planned to have it completed and ready for service by next May or June.

The new shop at Juniata is one of the fundamental improvements of the company in this locality, the other being a similar plant that will be erected later at Sixteenth street, this city, which will be located where the present engine house stands.

The other improvements include the storehouse, the removal of the scale shop, changing the present erecting shop to a tank shop, the removal of the storehouse and using it for a cab shop and changing the tank shop to machine shop No. 2 at Juniata; the remodeling of the freight car shop of the car shops and the enlargement and modernizing of other Altoona machine shops.

FINANCIAL EXPERT DECLARES BUSINESS IN HEALTHY SHAPE

F. C. Carles, Statistician For Harper & Turner, Gives Valuable Advice To the Firm's Clients.

MANAGER'S GUESTS

That general conditions affecting the bond investment market are good and that this class of investment, one of the less speculative, is certain to net gains to their owners in addition to the interest, was the belief expressed last evening by F. C. Carles, statistician for Harper & Turner, a bond house of Philadelphia, in an address given here last evening. Mr. Carles is an expert on bond investments, who holds one of the most important positions in the financial world and it was indeed a treat to hear such an array of business facts as was presented by him in the short space of time allotted.

It was through the good offices and thoughtfulness of Mr. L. A. McDowell of Clearfield, district manager for Harper & Turner, that Mr. Carles was brought here to meet the clients of the firm in Clearfield, Centre, Indiana and Jefferson counties, and a fine dinner was served at The Jordan to the invited clients and guests. Mr. McDowell introduced Mr. Carles as a man who did not know everything but who knew as much about bonds as any other man, and he believed, more, and all present agreed with Mr. McDowell at the end of the evening.

At the beginning of his address Mr. Carles launched into a discussion of general business conditions which he declared were highly satisfactory to those honestly desiring stable business. His reasonings were not based on volume of business, high profits and booms but rather on the more substantial and healthy conditions of finance which have resulted in firmer prices, lower interest rates, etc., which make it easier to do business and eliminate the risks. He then discussed the possibilities of business from all angles, interpreting the events of the current period in the light of his experience since 1895 as a student of investments and the relation of events to finance.

After this discussion, inquiries were invited as to particular issues of bonds and for over an hour an open forum was held during which no less than twenty-five issues were explained.

Mr. Carles is indeed a master in his chosen profession and it is to be regretted that investors as a whole do not avail themselves of the services of such houses as Harper & Turner and the many others who freely and willingly offer such service and who work with the banks in their respective communities in safeguarding investors. This service can be had from your bank or from the firms direct.

The pleasure of the evening was greatly enhanced by several vocal selections by Miss Jean Harris with Miss Smith at the piano.

Among those present were Dr. S. S. Davis, John Wrigley, James Wrigley, and Richard Kennard, of Clearfield; A. B. Lansberry, of Bradford township; Fred S. Dunlap and Mr. Kurtz, of Claysburg; Howard Thompson and Orrie Norris, of Curwensville; H. B. Powell, R. I. Fulton, Bowman Brown and W. Wallace Smith, of the County National; P. T. Davis, L. T. Gaulin and George Bigler, of the Clearfield Trust Co.; Jas. Mitchell, Jr., of the Clearfield National; L. C. Bence and Alva Brothers of Commodore, Pa.; Haskell Kunes and A. L. Shope, of the Karthaus State Bank; John Howe and S. N. Kelso, of the Morrisdale State Bank; Dr. Jackson and Mr. Hagstrom of the People's Bank of Osceola; J. M. Stewart and Mr. McFarland, of the Clymer National; W. B. Clark, of the Mahaffey National; Curtis E. Elkin and C. B. Bloom, of the Rossiter State Bank; Linus Elkin, of the Timplin National; Jas. J. Morgan and Robert E. Keck, of the Snow Shoe Bank; Howard Stewart and G. A. Stewart, of Clearfield; Mr. Hunter and Mr. Lord, of Irvonia.

MY KINGDOM FOR A BLANKET!

Notice what the weather man promises for tonight. He says the thermometer will drop about thirty-five degrees between now and morning. Take in the poses, drain the auto radiator and haul out an extra blanket. Safety First!

KNIFE IS FOUND NEAR SCENE OF DOUBLE SLAYING

Schneider Collapses In Jail; Attorney Says Authorities Are Not Giving Boy A Chance.

IN SERIOUS SHAPE

New Brunswick, N. J., Oct. 12.—Discovery of a knife with which Mrs. Mills may have been murdered brought out a new clue for the authorities to work on today in the Hall-Mills double murder mystery. It was developed during a rapid questioning of the proprietor of "Smith's Place" a dive on the outskirts of the city.

Following a popular demand it looks as if Clifford Hayes will be released as the authorities cannot fasten the crime on him. "I have every confidence in Clifford and do not believe he murdered my mother" said Charlotte Mills today, as she demanded the arrest of the real murderer by the officials.

Another clue which is being brought to the light comes from an eight-year old boy, John Lyons.

On the day following the double tragedy he ran to his mother with a blood stained kitchen knife which he said he found within one hundred and twenty-five feet of the place where the bodies were found. "Look, Ma, I've got the knife that killed the lady," Mrs. Lyons admonished the child to throw the knife away as she did not wish to be drawn into the affair but later reconsidered and saved it.

Schneider Collapses

New Brunswick, N. J., Oct. 12.—Raymond Schneider, who has accused his pal, Clifford Hayes, of the murder of the Rev. E. W. Hall and Mrs. Mills, collapsed in his cell today. Schneider broke down under the strain of the merciless grilling given him by the authorities. He is still in his cell in the Somerville jail and is in a serious condition.

Attorney Sedan, Schneider's counsel, said that he was not getting a fair chance from the authorities. "Every time I try to talk to Schneider they surround the cell" he said today. Attorney Haggerty, counsel for Hayes announced today that he had some new light on the situation in a statement that one of the vestrymen of the church of St. John, the Evangelist, was "fairly upset" when he attempted to attend to his business on the day following the Hall-Mills murder, and that within a day or so left for Philadelphia.

SENATOR CONNELL LEFT TWO MILLIONS

Sranton, Pa., Oct. 12.—The will of the late Senator Connell which was filed today disposed of an estate amounting to about two million. The will sets aside a goodly amount for the Elm Place M. E. church, leaving the balance of the vast estate to his widow.

ONE KILLED IN ITALIAN FEUD

Uniontown, Pa., Oct. 12.—A deadly revolver battle arising from a feud between two factions among the Italians of this city resulted in one death and another Italian badly wounded. Angelo Cambria is the dead man and Letit Camisele is in the hospital here at the point of death.

ANOTHER CHAPTER IN FOURTH WARD ELOPEMENT MIXUP

Viola Vallimont Luffletti and Jim Rossa, of East End, Picked Up At Rochester, N. Y.

SEEKING A LICENSE

Viola Vallimont, the East End young girl, who, on Aug. 9th last, eloped to Cumberland, Md., with Frank Luffletti, a young Italian resident also of the East End, and was married, is the central figure in another escapade which may or may not have some connection with the other affair, which resulted in Luffletti being convicted in criminal court last month of taking away and marrying without the consent of her parents a girl under 16 years of age, the jury finding from the evidence Viola was under 16 when married.

No final disposition of the case has been made as yet, Luffletti having been called up for sentence last Saturday but again remanded to jail by Judge Bell pending further investigation into the age of the girl.

Some time between 11:30 o'clock Monday night and 6:30 Tuesday morning Viola disappeared from her parents' home in East End. The girl's father notified District Attorney Arnold of Viola's disappearance and a quiet search was instituted for her, but no clue to her whereabouts was unearthed. A check-up of the young men of East End did disclose the fact that one Jim Rossa was also missing.

An intimation had been given the Vallimont family some time ago that there was a possibility of the young woman being spirited away and the police of northern Pennsylvania and New York State were notified to be on the lookout for the girl.

Just after dinner yesterday Chief of Police McMullen received a telegram from the Chief of Police of Rochester, N. Y., bearing the information that a couple giving their names as Jim Rossa and Viola Vallimont and claiming Clearfield as their home, had been picked up at Rochester and were being held on a vagrancy charge. When arrested, the young people declared they were in search of a marriage license and intended getting married.

Chief McMullen took his telegram to the district attorney's office and finding that Mr. Arnold was engaged in a criminal suit before a DuBois alderman he was called on the 'phone and given the contents of the telegram. The district attorney then telegraphed the chief of police at Rochester to hold the couple until the sheriff of Clearfield county came after them.

Information charging a criminal offense will be made against Rossa and the couple will be returned to Clearfield just as soon as the necessary legal papers can be prepared.

Harold Flegal was taken to the Hospital to be operated on for appendicitis and is getting along as well as can be expected.

FLYERS IN BATTLE FORMATION CAUSE CONSTERNATION IN BOOTLEGGER BUND

Four airplanes in battle formation attracted a great deal of attention from Clearfield people yesterday afternoon by their actions in the sky. They flew around and about over the town no less than three times. By reason of their peculiar actions the word got about that the District Prohibition enforcement officers from Punxsutawney had "taken to the air" in the search for the many moonshine stills said to be located in these hills, and the local Bootleggers' Guild were on the point of ordering a battery of anti-aircraft guns for the protection of their source of supply.

Before the order could be sent it was learned that the airplanes were enroute to Detroit to take part in the field meet to be held by the Aeronautical Engineers, to be participated in by army and navy planes. The

FIREMEN'S RELIEF BENEFITS BY DIVVY OF INSURANCE FEES

Harrisburg, Oct. 11.—Treasuries of cities and boroughs in Clearfield county will be enriched by the apportionment of fire insurance funds. The amount allotted to Clearfield county on the basis of the 2 per cent tax paid by Foreign insurance companies doing business within the State as per acts of 1895, 1909 and 1919 is \$4,615.51. Clearfield receives the largest amount, \$1,674.30 and DuBois the second largest, \$1,411.39. Apportionment of amounts to other cities and towns in Clearfield county is as follows:

Brisbin	\$ 27.11
Burnside	17.07
Chester Hill	27.90
Clearfield	1,674.30
Coalport	71.46
Curwensville	389.94
DuBois	1,411.39
Glen Hope	23.05
Grampian	22.08
Houtzdale	226.58
Irvonia	43.11
Lumber City	8.78
Mahaffey	101.35
Newberg	5.08
Osceola Mills	394.87
Ramey	47.35
Troutville	2.52
Wallacetown	5.74
Westover	80.38

Free Band Concert Will Be Given Tonight By The Italian Band At 7:30

The Clearfield Italian Band will give a free concert in St. Francis school hall on South Second street this evening beginning at 7:30 o'clock in honor of Columbus Day. All lovers of good music are invited to be present.

In addition to the musical program an address will be made by J. P. O'Laughlin, Esq.

Prof. Anselmo, director of the band, has prepared the following excellent program for the occasion:

Tannhauser R. Wagner
Trovatore Verdi
Sentimental Arr. by O. Anselmo
D'autrefois G. Silvestri
Wedding of the Winds J. T. Hall
Originale Arr. by O. Anselmo
Star Spangled Banner

SECRETARY MELLON WILL MODIFY THE OCEAN DRY RULING

Washington, Oct. 12.—The drastic regulations of the Prohibition board regarding the carrying of liquors within the three-mile limit was modified by Secretary of Treasury Mellon today. He announced that he would make full explanation of the modifications later. He said further that the measure was intended only to include the seizure of the liquor and not the ships whether American or foreign.

SUFFERED PARALYTIC STROKE

Perry Hurd, formerly employed at Cross' barber shop, suffered a paralytic stroke, while at work at the N. Y. C. yards yesterday afternoon and is now a patient at the Clearfield Hospital.

BOOSTER MEETING OF P. O. S. OF A. IS A HUGE SUCCESS

Loyal Oldtimers Flock Again To the Colors at Lodge Hall To Mingle With Later Initiates.

BIG ATTENDANCE

Washington Camp, No. 591 P. O. S. of A. and the local Camp of the P. O. S. of A. were hosts last evening at their lodge room in the Kurtz Building on Second street, to the different camps of both orders in this section and the spacious quarters were taxed to capacity to take care of the crowd. Large delegations were present from Woodland, Olanta, Grampian, Blye Ball, DuBois, Bellwood and Tyrone and a rousing old-time patriotic meeting was the result.

After the lodge had closed a short business session, the meeting was thrown open to all under the direction of Secretary Earl D. Yeager as chairman. Chairman Yeager made the visitors welcome in a few brief sentences and then took up the program of the evening which was opened by the singing of the opening ode, "Columbia," after which Rev. F. L. Bardens, of Blairsville, Pa., an enthusiastic member of Camp 591 for many years, offered an eloquent prayer. This was followed by the singing of "America."

The first speaker introduced by Chairman Yeager was Hon. W. I. Swoope, one of Camp No. 591's most distinguished members, who is a Past State President of the order. Mr. Swoope made one of his characteristically patriotic addresses which he opened by stating that he had joined the order just 26 years ago as an appreciated his membership as much today as the day he first joined. He recounted the accomplishments of the order during the last quarter century and highly complimented the membership on the great record they had made, stating that it was alone due to their efforts that the flag was placed upon every public schoolhouse in the land. The speaker touched upon the disrespect of law so widespread throughout our country since the war and said "we hear so much about the League of Nations and the League to Enforce Peace, but what is needed right here and now is a 'League to Enforce Law,' and every red-blooded American should enroll to see that the laws of his country, and all the laws, were rigidly enforced." Mr. Swoope closed by telling his audience the mission of the P. O. S. of A. was "Americanization" and urged all to be vigilant in the inculcation of American principles at all times. His remarks elicited vociferous applause.

The next speaker was Rev. F. L. Bardens, who did much in the past to put Camp No. 591 in the very forefront of the P. O. S. of A. camps in the State when he was located here. Rev. Bardens is an exceptionally forceful speaker and told his hearers that "vigilance in personal patriotism" was the crying need of the hour and that it behooved every patriotic son of America to be up and doing in his daily exemplification of the principles of the order and that eternal vigilance was as much the price of liberty today as the day the sentiment was first given utterance by that early day patriotic American who advanced the theory.

Rev. Bardens represented Camp No. 591 at the recent State convention at Johnstown and informed the members they would soon be notified through their lodge of the necessity to look into the histories being taught in our schools in order that the coming generations of young America might get the right idea of our early history. Rev. Bardens also urged everybody, both men and women to go to the polls on election day and make possible by united action the safeguarding of our liberties by the writing of the proper and necessary laws upon our statute books.

Hon. F. G. Harris followed Rev. Bardens. Mr. Harris was initiated in the same class with Era. W. I. Swoope and he too testified to the very great satisfaction membership in this sterling patriotic order gave

BOOSTER MEETING

(Continued From Page One)

him. He paid tribute to Old Glory and displayed a small American flag which he had owned for forty-five years and which he carried with him on a trip he made through Europe several years ago. He gave his hearers a leaf out of his experiences on that trip in detailing to them the respect the Stars and Stripes forced from every manner of people the world over. Mr. Harris warmed to his task like the real old-timer he is and at the conclusion of his remarks was highly complimented for same by Rev. Bardens on behalf of the assembly, which gave Mr. Harris a rising vote of thanks for his patriotic utterances.

Hon. Joseph E. Phillips, the "Sage of Sanborn," who is a veteran in the P. O. S. of A. of thirty-one years' standing, was then introduced and made one of those happy little speeches which always gets Joe "a hand." He told of the struggles of the order in the early day and paid high compliment to the P. O. S. of A., which he styled one of Pennsylvania's earliest patriotic orders with a record of having furnished "first defenders" in three wars and was always found 100 per cent. right on every proposition affecting the liberties of the American people. During Joe's remarks he asked to have all those stand who had been members of Camp No. 591 more than twenty-six years and no less than seven of those present stood up.

District President James Blyler responded briefly to the request of Chairman Yeager for a speech and the speechmaking was closed by David Young, of Woodland, another old-timer and enthusiastic P. O. S. of A. worker for nearly a quarter century. At the close of the speaking program the ladies of the local P. O. of A. got busy and served the assembly with most appetizing refreshments to which all did ample justice, and after disposing of the refreshments all departed for their homes firm in the belief that Camp No. 591 and the P. O. of A. were delightful hosts.

The new Woodland band furnished the music during the evening and were the recipients of many flattering compliments for their excellent music.

SHOT AND THREW
MAN IN RIVER

Pittsburgh, Pa., Oct. 12.—Aided by the firemen of Avalon, the police of that suburb are today searching the Allegheny River and vicinity endeavoring to find the body of a murdered man, supposed to have been shot by Sam Miller, aged 35.

Miller walked into the Central Police station and told the desk man: "I have shot and killed a man down in Avalon and have thrown his body into the Allegheny river." Miller was held pending the result of the search.

Lying and Perjury.
A lie is a statement which is thought to be false by the person who utters it, and is intended to deceive; while perjury is a false statement made under oath.

IF SKIN BREAKS
OUT AND ITCHES
APPLY SULPHUR

Just the moment you apply Mentho Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place. Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness. You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur at any drug store.

BRIDE "BUMS" WAY
WITH HER HUSBAND

Haled Into Court, Judge Takes
Up Collection and Sends
Them on Way.

Chicago.—A honeymoon tour on the rods of freight trains ended for John Bower and his wife, Helen, each twenty-three years old, when they were arraigned before Judge John F. Bass, in Chicago, on charges of disorderly conduct. With \$15 collected in the courtroom, the couple finished their journey from Chicago to Grand Rapids, Mich., "on the cushions."

A special watchman passing through the Chicago railroad yards saw two forms huddled closely together on the rods of a freight train. They were

Arraigned Before Judge Haas.

taken to a police station. The desk sergeant looked with unconcern upon what he believed to be two dirt-bested men. They were dressed alike.

"In his wife," said the smaller one, "You're his what?" asked the sergeant, gazing at Mrs. Bower's clothing.

She admitted that she had dressed as a man in order that she might remain with her husband in his travels. And she added that she "would rather ride the rods with John than in a Pullman with any one else."

Bower said he was married January 2 and with his wife went to Cedar Rapids, La., on his honeymoon tour

and to obtain a position with his brother, a farmer there. When he reached Cedar Rapids he had only 50 cents. He failed to get work and he and his wife rode "blind baggage" into Chicago.

SLEUTH PLAYED BOTH ENDS

Chicago Detective Lived With Woman
He Had Been Hired by Husband
to Find.

Chicago.—The story of a detective living with the wife of a man who had sent him out to find her was told by Dr. Sebastian Becker of Chicago, who says the sleuth presented expense accounts which supported the couple when they were paid. A warrant has been sworn out for the arrest of Ray W. Smedley, the detective.

Becker's wife disappeared several weeks ago, her husband says, and Smedley came to him offering to find the missing woman. There began then, the doctor says, what he thought was a nation-wide search. Bills were received from all parts of the country.

Becker became disgusted when he had spent \$3000 in the hunt, he says and put another detective on the job. This man found the detective and Becker's wife living together in Chicago. They had been forcing Becker to support them. Smedley has disappeared.

WOMAN HELD AS ARSON CHIEF

Fire Marshal Gets Warrant After
Probing Several Fires in
Louisiana.

New Orleans, La.—Mrs. M. E. Crosby, widely known in Louisiana as "Arson Trust," in warrants sworn out by Conrad Leoz, state fire marshal after investigation of fires in several Louisiana towns. Warrants also were issued for Mrs. Crosby's two daughters and their husbands, Mr. and Mrs. H. R. Roney and Mr. and Mrs. J. D. Highton. Mr. Leoz announced.

Owl Takes Joy Ride
on Hand of Big Clock

Pottsville, Pa.—A large, solemn owl the other day perched on the hour hand of the big clock on the courthouse tower here.

The bird sat there several hours and shifted its position as the hand went around. A large crowd watched. The owl did not stop the clock, so it was not disturbed. It finally flew away.

OYSTERS
They're Here
Every Day

And they're mighty good oysters. They come from the great Chesapeake Bay oyster grounds, where the finest oysters in the world are grown. You'll find that they are fat, juicy and succulent and just what you have been looking for after the long time you have been without them.

We have the big ones for frying and the smaller ones for stews. You'll find them all just what you've been looking for to tickle your palate.

THORN BROS.

CLOTHCRAFT GUARANTEE
We hereby guarantee this Clothcraft garment to give satisfactory wear and service. We stand back of the retailer in assuring prompt and satisfactory adjustments should any cause for complaint or dissatisfaction arise.
THE JOSEPH FEISS COMPANY
Cleveland, Ohio.

WHAT THE CLOTHCRAFT GUARANTEE
MEANS TO YOU

It means that when you buy a Clothcraft garment you can be absolutely sure that it will give satisfactory wear and service. It means that the front of the coat will not break or lose its shape as long as you wear it. It means that you get the class of workmanship usually found only in higher priced clothing. It means, in short, that you can get good clothes—clothes that fit and look and wear well—at moderate prices.

We stand back of the dealer in assuring you perfect satisfaction, so that when you need another suit or overcoat you will want and ask for Clothcraft.

It is not often that the Clothcraft dealer is called upon to make good this guarantee, but should you ever have any complaint it will be adjusted promptly and to your satisfaction.

The Clothcraft guarantee insures you good clothing values and protects you against defect in material or workmanship.

THE JOSEPH FEISS COMPANY
Cleveland, Ohio.
We Add Our Own Guarantee To The Joseph Feiss Co.

TOWN PESTS

The Ho-Flapper is Paw's Pet Pest, though the girls think he is just Darling. When Paw looks at this Cookie Duster, he wishes he'd remained an Ole Bachelor, but Maw remembers when Paw was known as a Dude and just smiles. The Cartoonist keeps his Rolis-Itzyce in tress, selling jokes about the Puddle Jumper.

Toothache Superstition.

Some quaint superstitions still linger around common flowers in England. Groundsel is said to cure toothache if dug up with an implement having no iron in it, and the aching tooth is touched five times with the root.

That Word "Saffron."

The word "saffron" comes into the English dictionary from the Arabic. The Arabs use the word "zafaran" to designate a species of crocus with light purple flowers which develop in autumn. The plant grows in parts of Asia and to the south of Europe.—Alli Waukees Sentinel.

Seems Reasonable.

We do not in the least object to a row in an adjoining apartment. But if we are kept awake by it we think it only fair and equitable that we should be permitted thoroughly to undress and enjoy it.—Philadelphia Public Ledger.

Lake Champlain.

Lake Champlain was discovered in 1609 by Samuel de Champlain, a French explorer and colonizer, who gave it his own name. The lake is drained on the north by the Richelieu river, which empties into the St. Lawrence.

True Wisdom.

Wisdom consisteth not in knowing many things, nor even in knowing them thoroughly; but in choosing and following what conduces the most certainly to our lasting happiness and true glory.—Lander.

Must Get Confidence.

All the cleverest hocus-pocus of the "horn salesman" and all the systematic strategy of the back-trained "scientific salesman" fail if the customer's confidence is not aroused.—P. K. March.

Australian Bird's Many Names.

The Australian thick-headed shrike is about six inches long, rich-yellow below, with a jet-black collar and a white throat, black head and partly black tail. It is sometimes called the black-breasted flycatcher and it has also a variety of French and new Latin names.

First Methods of Cooking.

Roasting in earth ovens and boiling by placing hot stones in earthenware vessels were prehistoric means of cooking food.

ON TIME

Think what this means in any walk of life—to work on time, train time, meal time, social engagements, business appointments.

How embarrassing, aggravating—yes, even serious, it is when you're not there on time.

Money lost, time lost, opportunities lost because the clock or watch did not keep proper time.

You'll always be on time if you have your watch or clock repaired at

ODDS AND ENDS AND THINGS

By J. D. C.

What appears to be steady rain, ranging from a slight drizzle to a fairly heavy shower, has been falling in a space about ten feet square in front of the house at No. 417 South Washington street, Alexandria, Va., since Sept. 29.

Every effort has been made to discover the reason for the seemingly freak rainfall. The Weather Bureau in Washington declares it a physical impossibility. A representative from the Bureau of Forestry, after an inspection, said the rain was not caused by the fall of sap from a nearby tree, as some have insisted. Hundreds from Washington and nearby points have flocked to see the freak.

A poplar tree adjacent to the spot where the rain is falling is putting out new leaves and buds as the apparent result of the showers.

Leaving America to take up his residence in England because, he said, there is no intelligent companionship among the idle rich in this country, George F. Brown of Stonebridge, one of the show places of Dedham, Mass., sailed Sunday on the White Star Line steamship Pittsburg.

"I am giving up America for England because I crave the intelligence of the English people. In America I find intelligence in the middle class that accomplishes the great play in making both ends meet. The rich class misses this pleasure.

"The middle class is the backbone of the country, the men that won the war, who make their wages with their minds. They go home sober, due to prohibition, which escapes the upper rich class, who get their supply of liquors from the bootleggers and nobody cares.

"I am going to England to join the leisure class that has intelligence which I could have enjoyed in America had I the luck to be born in the middle class."

Mr. Brown denied that he intended to forswear allegiance to the United States, but said that many of his ancestors were English.

A marker tablet indicating the site of the smelting of the first iron in Centre county will be unveiled on Oct. 30, near the entrance to the grounds of the Pennsylvania State College. The stone stack of the old furnace is still standing just outside of the town of State College where it was erected 136 years ago by Colonel John Patton and Colonel Samuel Miles, who were officers in the Revolutionary war. The tablet is to be placed there by the Pennsylvania Historical commission and the department of history of the Pennsylvania State College previous year.

The registration areas include a

large.

The iron from this old furnace was transported to Pittsburgh mills by mule-back, in the days long before railroads came into use. The furnace was operated from 1792 to 1803 and from 1825 to 1858, and marked the beginning of many similar industries in the central part of the State.

A record low death rate was established last year in the registration areas of the United States, according to an announcement by the Department of Commerce, which gave the 1921 rate as 11.7 a thousand population, against 13.1 in 1920.

The infant mortality rate for 1921 also decreased from 1920. The statement gave the rate for 1921 as 76 a thousand, and 86 a thousand for the population of 70,325,000.

The birth rate for 1921 was 24.3 a thousand against 23.7 a thousand in 1920.

The British Government, in the reply it will make almost immediately to the United States Government's suggestion for a mutual arrangement which will permit America's prohibition navy to search British vessels outside the three-mile limit, will point out with emphasis that Great Britain as a naval power cannot come to any such arrangement.

But Great Britain will assure the United States in the reply that it is regrettable that certain rum-runners with false clearance papers and dubious registration have been engaged in the liquor traffic from the West Indies and will promise that everything possible will be done to put an end to this.

Old Johnny Bull, in this emergency, will no doubt recall a certain "bloody-well" good licking he got himself for hopping aboard American boats back in 1812 and yanking off seamen he took a "fawney" to for one reason or another.

As Sponge Comes From the Sea.

If the sponge as brought up fresh from the seashore were a familiar object few persons would be in doubt as to its being an animal. When fresh it is a fleshy-looking substance, covered with a thin skin. Its cavities are filled with a gelatinous substance called "milk."

STOP ITCHING SKIN

Zemo the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin. Ask any druggist for a 25c or 50c bottle of Zemo and apply it as directed. Soon you will find that irritations, Pimples, Blackheads, Eczema, Blisters, Ringworm and similar skin troubles will disappear.

Zemo, the penetrating, catyifying liquid, is all that is needed for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

EUROPE'S WEAKNESS

It is related that the sultan of Turkey 300 years ago, after a disastrous war, ordered his people every morning to recite this prayer: "May the Angel of Discord, who has always been our ally, come again to our aid, and confound our enemies." The angel may or may not have heeded the Mohammedan prayers, but time and again there has been discord among European powers and every time Turkey has taken advantage of it. Again, there has been indecision and lack of harmony among European powers, and Turkey has made the most of its opportunity. Europe's weakness has been and is now Turkey's strength.

In the settlement of questions resulting from the World War, European powers largely looked to advantages to themselves. As advantages gained became apparent, jealousies resulted, and united purposes and action became impossible. Great Britain desired removal of the Mohammedan menace to her Indian possessions, and encouraged Greece to fight Turkey, though other nations opposed. This is why Great Britain alone today undertakes to prevent Turkey from regaining a foothold in Europe. British forces face a Turkish army that would have been an insignificant contingent in the World War, but is now powerful enough to menace not only Europe but India.

Before the conflict in the Near East is terminated Europe may be taught a very valuable lesson by Turkey. Great Britain especially may find it more advantageous to compose differences with her neighbors than to compromise with the Turk. The whole Near East question will undoubtedly have to be reviewed and readjusted, simply because Europe's weakness made Turkey strong.

COMPETENT FACT FINDERS (Philadelphia Evening Bulletin.)

President Harding has named a commission of the first order for the fact-finding task in the determination of the coal problem of the country. John Hays Hammond is a mining engineer of established reputation; George Otis Smith, director of the United States Geological Survey, brings an accumulation of research and experience which should be invaluable; Charles P. Neill, with long service in the government's dealing with industrial problems, has the confidence of labor; Dr. Edward T. Devine, a domestic economist of New York, knows the needs of the consumer. Such publicists as former Vice-President Thomas R. Marshall, Judge Alschuler, of Chicago, and Clark Howell, editor of the Atlanta Constitution, complete a body of men which, in its personnel, challenges criticism.

The commission has only advisory status. It has ample power to search out facts, but the enforcement of its recommendations rests with public opinion, pressing upon Congress or other governmental authority. The report is likely to be delayed for several months. It is doubtful if it can be ready on January 15th, the stated time. But whenever it shall appear, it ought not to find a public forgetful of the lessons which have been learned during the past summer. That experience ought to be kept in mind, continuously, so that when this report shall be made there shall be a public opinion, ready and insistent, to back it up and demand that its findings toward the solution of this perennial problem shall be made effective.

THE MESSAGE OF THE CARS

A car shortage is actually developing on the railroads. That is at once a good and a bad thing for business. Without the cars, goods can't be moved. But happy are the days when trade is crying out for transportation, when railroads are bending every effort to meet the demands upon them.

The figures for a two-week period in the last four years are illuminating. Here they are:

1919,—1,990,892 cars.
1920,—1,999,275 cars.
1921,—1,727,193 cars.
1922,—1,919,210 cars.

Business is hitting its stride again, and is already over the corresponding 1921 figure. A great industrial revival is sweeping the country. The indications are that it will last through the winter.

The railroads are the best barometer of general trade conditions. This increased activity means but one thing. Good times are on the way. That is the message of the freight cars.

In the course of several thousand years the truth may sink in that crime is to be attributed more to the innate evilness of some human nature than to any object supposed to make such natures criminal.

When the French envoy arrived at Smyrna, he was met in the harbor by Kemal, who kissed him on both cheeks. The harbor is congratulated on its escape.

WOODLAND BAND MAKES GOOD IMPRESSION

The Woodland Cornet Band, a comparatively new organization, made its appearance in Clearfield last evening for the first time and elicited much favorable comment from our people who saw the band in their nob by new suits and heard their music.

The band is composed of thirty-one members, a large number of whom are young fellows, with just enough experienced musicians to make a well balanced band with a little more training and experience for the younger men.

The boys are doing very well for the time they have been at it and Woodland has every reason to be proud of her band.

London's "Mansion House."

The official residence of the lord mayor of London was built between 1739 and 1753.

CLEARFIELD COUNTY BOY SOME GOLFER

Walter Swoope, fourteen-year-old son of H. B. Swoope of Madera, Pa., recently won the third division of the regular Overbrook Golf Club tournament near Philadelphia, winning his first match from George Hansen, 5 and 3; second match from H. J. McDermott, 1 up on 19th hole; third match from F. A. Bloont, 3 and 1, and his fourth match from C. P. Johnson, 1 up.

Silence Infectious.

It is always observable that silence propagates itself, and that the longer talk has been suspended, the more difficult it is to find anything to say.—Samuel Johnson.

Discovery Yet to Be Made.

Persians believe that on a certain charmed day—a secret which but few have ever discovered—the rose has a heart of pure gold.

Current Business Conditions

By GEORGE E. ROBERTS

(From the Monthly Bulletin for October Issued by The National City Bank of New York)

THERE is considerable discussion and difference of opinion as to whether another period of credit inflation and rising prices is in sight. The prices of many commodities are tending upward, wage advances signify higher industrial costs and the volume of bank loans is now increasing. What is the difference between legitimate and wholesome expansion and the unhealthy state which is called inflation?

If comparison is made with the situation before the war, conditions are now inflated but this is not changeable to the slight expansion as long as exchange rates are in which have taken place in the last few weeks. Prices have had a very considerable fall from the top, and a slight recovery from that fall, but this gain cannot be called secondary inflation. It looks like a recovery that always comes when the old stocks are exhausted and the industry gets fairly under way again. The fall of prices was uneven and in some cases too precipitate, and the entanglement of industry was too great to permit of supplying the necessary demands.

Although the war-time was anything but a period of depression, some of the effects were similar to those resulting from a period of depression. Industry in some lines fell behind the normal growth of the country, creating a deficit of supply, or accumulation of demand. This is true in housebuilding, in the construction of railway equipment, and in some other lines, and a revival has occurred in those lines. It is due to imperative needs, rather than to a belief that the bottom has been finally reached in construction costs, although the feeling doubtless prevails that prices are not likely to go lower until the existing shortage is in large part made up. The advance of wages is due in part to the revival of industry, but in large part to the immigration act.

It is quite evident that abnormal conditions in some of the industries are directly influencing prices at this time. The rise of iron and steel is mainly due to the coal strike, which has affected all industrial costs.

There is nothing about the attitude of buyers of general merchandise that indicates a desire to anticipate future wants. They are buying cautiously, for immediate needs only, and fighting advances, which is just the opposite of the common attitude when inflation is under way.

Conditions Favorable to Inflation

It is true that conditions are very favorable to an inflation of credit. We have a great number of independent banking institutions, actively competing with each other for customers, and the most effective way that has ever been found for giving customers is by the extension of credit. These banks have a great amount of money on hand, and a large part of it is in the form of cash. They have a large amount of money on hand, and a large part of it is in the form of cash. They have a large amount of money on hand, and a large part of it is in the form of cash.

Reasons for Caution

One reason for doubting that the country will swing readily into another inflationary period is that so little time has elapsed since the last one.

There would seem to be reason to believe that most of the business men who passed through the experiences of 1921 and 1922 will want to make very careful study of probabilities before they commit themselves to extensive obligations on a level of prices much above the present one.

As an answer to the argument that the importations of gold make for inflation, it is to be said that it would be most unwise to build a great fabric of credit on a temporary foundation. If this influx of gold should put prices up, by the same logic an influx of it would put them down. Nothing can be more certain than that the present situation, in which gold came from the United States last month from all countries, is abnormal and cannot be permanent.

Prices Over the Long Run

It is affirmed very positively in some quarters that the present price-level has gone forever, and that it will not be possible to return to it. It is a great amount of money on hand, and a large part of it is in the form of cash. They have a large amount of money on hand, and a large part of it is in the form of cash.

have been the product of abnormal conditions, while the price-level of pre-war times was the natural result of the free-play of all economic forces over a prolonged period, and nothing is more certain than that, given similar conditions permanently, economic laws will tend to repeat similar results.

Wages and Prices After Civil War

One reason given for holding that the old price-level never will return is that labor has become highly organized and never will consent to lower its standard of living. It is also pointed out that wages were not reduced to the pre-war level after the Civil War. It is pertinent to say as to the last argument, that prices were reduced. Wages depend at last upon production, and if production can be increased in the coming years as it was after the Civil War, so that goods are cheapened, consumption increased, and the demand for laborious increased, not only will there be no occasion to reduce wages, but it would be impossible to do so even if labor was unorganized.

Wages and Living Standard

On the other hand, unless production is cheapened, the standard of living is not raised for the wage-earning class by pushing up wages, because the cost of living rises with them. It is perfectly futile—foolish, if you will—to look for any general improvement of social conditions by merely raising wages in terms of money. To talk about it is nothing but a habit of mind.

There are no gains from raising money-wages, except as there are inequalities in the advances, some groups of workers getting their compensation raised at the expense of others. Such benefits are not their general nor permanent, for in the long run the economic law will find a way of equalizing conditions.

A Sound Basis for Prosperity

If we accept the very substantial revival which has taken place this year as a natural recovery from an excessive curtailment of industry in 1921, and a natural result of progress made in restoring the equilibrium between the several branches of industry, by reductions in some quarters and advances in others, and if we endeavor in a spirit of harmony and co-operation to restore the equilibrium more completely, in order to obtain such a free and full interchange of goods and services that everybody shall be employed and production shall be to the limit of capacity, we may hope to have a better year in 1923 than in 1922. That is the method by which prosperity is achieved.

On the other hand, if the public generally does not possess of the idea that a better is coming, and is willing to borrow and spend upon that belief, it is possible that a short course of inflation may be the result.

be penalized.

It also recommended that a committee on industrial co-operation be created to investigate plans to end industrial strife, either by mediation or arbitration and recommend to the board of directors of the congress such plans as its investigation shall show to be advisable.

The O'ld Year and New.

Different nations began the year at different times. The Romans started it with March 1, the Macedonians in September, the Aztecs on February 28, the Athenians in June and the Persians on August 11.

Seeking Kind Words.

"Henrietta," said Mr. Meckton, "if I become a candidate will you make speeches in my behalf?" "Of course, Leondas." "Then I am going into politics. I think I'll feel more encouraged when you're talking about me than I do when you're talking to me."

NOTICE

A pie social Friday night the 13th

Evilently Christians.

An American family living in China recently hired two servants from Nan King, a missionary center. Accordingly, the new servants were Christians. Another Chinese servant in the family discovered the newcomers' religion and reported the fact to his mistress. Asked how he knew the new boys were Christians, he said: "Oh, they know all about God, Jesus Christ, and Santa Claus."

The Caterpillar Post.

France, in the middle ages, had a remarkable method of dealing with plagues of caterpillars. In 1129 the Bishop of Laon pronounced a solemn sentence of excommunication against caterpillars and grasshoppers.

Father Should Know.

All were quiet in the cinema watching a comic character counterfeiting intoxication. The silence was broken by a small boy's shrill voice. "That ain't the way to be drunk, is it, far-ve?"—London Morning Post.

Wrong Never Pays.

It is vain to trust in wrong. As much of evil, so much of loss, is the formula of human history.—Theodore Parker.

OUR SANDWICHES INCLUDE A WIDE VARIETY ALWAYS

There's always a wide variety of fillings for sandwiches here and you'll find that there's a wholesomeness to them that you are going to enjoy.

Drop in some time and see what dainty ones we are serving and taste the goodness of some of our milk drinks.

VIRGINIA CHOCOLATE SHOP

LEGAL

DIVORCE NOTICE

In the Court of Common Pleas of Clearfield County, Pennsylvania: Ruth Elizabeth Wagner : No. 444 vs. : Sept. Term, Clair Wagner. : 1922.

You are hereby notified that the undersigned commissioner, appointed by the Court to take the testimony in the above stated case and report the same to the Court, with form of decree, will sit for the purpose of his appointment, at his office in the Clearfield Trust Company Building, at Clearfield, Pennsylvania, on Friday, the 3rd day of November, 1922, at ten o'clock A. M., when and where you may attend if you think proper.

GEORGE R. BIGLER,
Commissioner.

CHARTER NOTICE

Notice is hereby given that an application will be made to the Governor of the State of Pennsylvania on November 14, 1922, by Joseph Boron, John Boron, T. C. Richards, et al, under the Act of Assembly of the Commonwealth of Pennsylvania, entitled "An Act to provide for the incorporation and regulation of certain corporations," approved April 29, 1874 and the supplements thereto, for the charter of an intended corporation to be called "CONTINENTAL BITUMINOUS MINING COMPANY," the character and object of which is for the purpose of mining, quarrying, stripping and otherwise producing, coal, fireclay and other mineral substances incidentally developed; the buying and selling of coal, fireclay and other mineral substances; the transporting of the same to market and the acquiring, holding and disposing of real estate by sale, lease or otherwise as may be necessary from time to time for the proper business of said corporation, and for these purposes to have and possess and enjoy all the right, benefit and privileges of the said Act of Assembly and its supplements.

MILLER & HARTSWICK,
Solicitors.

Italy Leads in Violins.

The best violin strings have always come from Italy. Why this should be is something of a mystery, but in the making of strings, as in the making of violins, Italy has always led the world.

Merely Shifts It.

The man who doesn't want any trouble and endeavors to smooth things so he will have none, not infrequently mixes the dope for some one else.—Exchange.

So Different From Hers.

Edith—"Jack wants me to set the date for my wedding." Miss Flynt—"Goodness! Do your fiancés take their engagements as seriously as that?"—Boston Evening Transcript.

Philanthropy.

Philanthropy is never so mighty as when she seeks to achieve her lofty ends by means in harmony with her own spirit.

First American Marriage.

The first Christian marriage ceremony in the American colonies was performed at Jamestown in 1609.

A Test of Strength.

To demonstrate the strength of a certain make of writing paper, five girls grouped themselves on a beam suspended from a single screw of the paper. The total weight it supported was 760 pounds.

At Least, she thinks so.

The trouble is, if he has discretion enough not to write her letters that can be used in court, he doesn't have her enough to be convincing.—Exchange.

Loss by Evaporation.

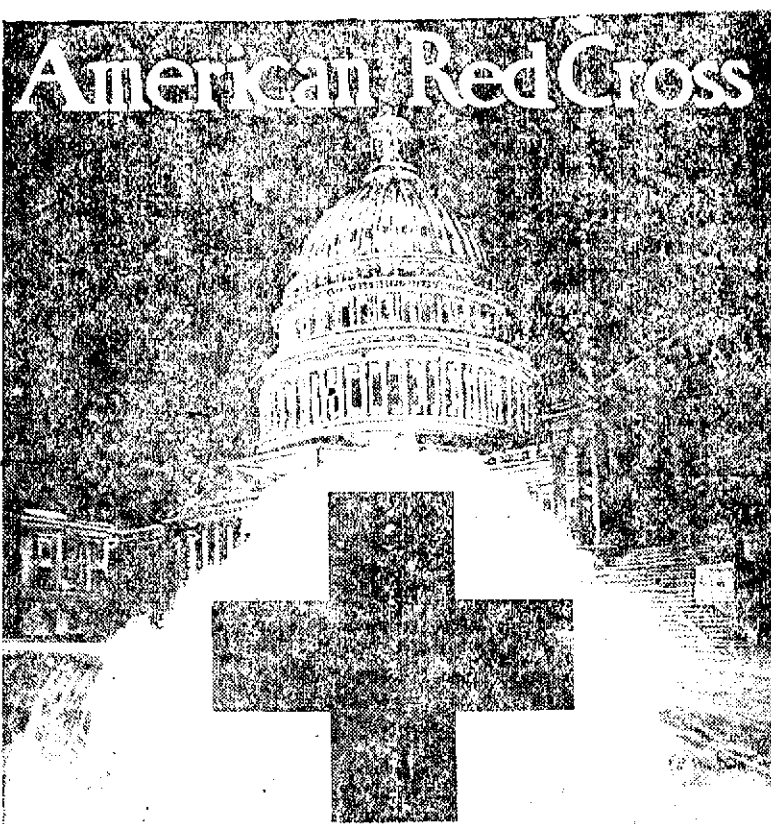

The volume of gasoline that is lost by evaporation in one stage in the handling of crude oil is equal to one-thirtieth of the country's annual gasoline production.

Honor Belongs to Providence.

Providence was the first city in the United States to have open air schools.

Striking New Red Cross Poster

American Red Cross

Chartered by Congress
To Relieve and Prevent Suffering
In Peace and In War
At Home & Abroad

Riveting the attention of the beholder on the fact that the American Red Cross is chartered by Congress as an official volunteer relief organization the dome of the Capitol at Washington, upon which is superimposed a large Red Cross, is the central figure of a new poster for the Annual Red Cross Roll Call. The poster, which has been pronounced one of the most striking of innumerable representations of the famous dome, is the work of Franklin Booth, a New York artist of wide renown. It will be displayed throughout the country during the Roll Call period, Armistice Day to Thanksgiving, when the Red Cross membership for 1922 will be enrolled.

Junior Red Cross Praised for Work Influencing Peace

The advancing standard of the Junior American Red Cross made two outstanding gains during the last year—one in the field of domestic activity, which is rapidly linking up the schools with the Junior program, the other a gain of a dozen countries in Europe pledged to organize Juniors on the lines of the American organization. For this accomplishment the American Juniors earned the hearty endorsement of the League of Red Cross Societies for its "vention of an international spirit of human solidarity among young people with a view to preparation of a new civilization for peace."

The first-coming annual report of the American Red Cross for the year ended June 30, 1922, will show 24,528 schools enrolled, with a total of 448,843 pupils wearing the "I Serve" button of the American Junior Red Cross—the badge of unselfish service earned by each individual member through personal sacrifice.

In international school correspondence 736 classes and schools engaged in friendly communication with 623 schools in European countries, 10 schools in United States territories, 17 in South Africa and 10 in a miscellane list of foreign countries. The work in foreign fields in establishing playgrounds, school libraries, sewing and manual training classes, homes for war orphans, school reconstruction in devastated areas, encouraging community gardens and many other activities was financed through the National Children's Fund raised by the Juniors at a cost of \$382,277.40. During the year \$36,221.75 was contributed toward the fund, in which on July 1 there was a balance of \$201,361.58.

Greatest Mother Summons Her Children

An allegorical concept of the Red Cross as a peace-time ideal is employed by the American Red Cross in a new and striking poster for its Annual Red Cross Roll Call. Spread out before the heroic size figure is the outline of the United States with a Red Cross superimposed upon it while around its borders are sketched scenes depicting the chief activities of the Red Cross today—service to disabled veterans of the World War, disaster relief and promotion of the public health. The poster is the work of Lawrence Wilton, a New York artist and will be displayed throughout the country during the enrollment of the Red Cross membership for 1923.

LATE FALL

Feed for Winter Eggs Now.

WINTER egg slumps usually start in mid-summer when hens improperly fed, begin to moult too soon. They draw on their bodies for feathers. The moult drags into winter with the hens in run down condition, unable to lay.

Late Moulters Pay Best

You can't neglect your hens in summer and expect a heavy egg yield next winter. Make your hens moult quickly and naturally by feeding Purina Poultry Chow. Get eggs when other hens stop laying.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The Ladies Adult Bible Class of the Methodist Episcopal church will hold a food sale on Saturday afternoon, October 14th, at Way's Stationery store, State street.

Mrs. Henry Stockbridge, who has been visiting with her daughter, Mrs. A. B. Ammerman, on South Side for several months past, left yesterday morning for Pittsburgh, where she will remain some time with her son Fred Stockbridge, who is a conductor on the Pennsylvania railroad running on the main line.

Mrs. Merritt Caldwell left Curwensville on Tuesday for Lancaster, Pa., to attend a Sunday school convention as a delegate.

Rev. and Mrs. J. C. Collins went out to Bloom township yesterday and sang at the funeral of the late Oscar Bilger. Mr. and Mrs. Harry Bilger and Mr. Reuben Bilger were also attendants. Rev. Collins made the opening prayer, after which Mr. Hollopeter, of Rockton, a member of the Brethren church, preached the funeral discourse. All of the deceased's brothers, with the exception of one who is in New Mexico and could not reach here in time, were present as was also his only sister, Mrs. Alice Shaffer, who resides in the west. His was the largest funeral ever attended by residents in the Greenville section.

George L. Benner, who for seventeen years was superintendent and manager of the Raftsmen Water Company, has resigned from that position. Mr. Thompson the new owner, assuming that duty himself.

A scarlet fever card has been posted at the home of Walter Bennett, on upper Ridge avenue. The family have been quarantined.

Curwensville had a trio of prominent visitors yesterday in the person of Dr. Butler, of Des Moines, Ia.; Dr. Townsend of Detroit, Mich.; and Rev. Dr. E. E. McKelvey, of Bellefonte. The gentlemen are making a whirlwind circuit for the purpose of raising money for the support of Dickinson College. They met with considerable success on their subscription list, one citizen donating \$500. They expressed themselves well pleased with the town's appearance and the hearty and welcome reception tendered them while in town.

A car labeled "Ford City Fishing and Hunting Club" passed thru this village yesterday afternoon. In the wagon sat four gentlemen who inquired the route leading to the mountains out Penfield way. They contemplated locating a site for a hunting camp, which will be occupied during the deer hunting season.

Scott McFadden, Grampian road, has purchased a new Ford. Dr. Miles Wall, Walnut street, has also invested in a new two seated Studebaker.

Mrs. Linn Faust, of Wilkinsburg, Pa., is spending the week in the home of Mrs. Aggar Bloom, corner George and Thompson street.

Miss Irene Sykes, daughter of Mr. Mrs. J. W. Sykes is ill at the home of her parents on North Thompson street.

New shipment of Sport and Trimmed Hats Received today.

THE HAT & GIFT SHOP

Joshua Sipes Post No. 505, American Legion, held an interesting session Tuesday evening. Several questions were discussed at length pertaining to the welfare of the Post for the year. Among other business transacted was the nomination of officers. Three members were nominated for

the post of Commander, Geo. L. Kitzberger, Jr.; James Booth and William Frank; for vice-commander, C. M. Ammerman, Paul G. Robinson and Ed. G. Norris; adjutant, C. H. Ammerman and Miss Mary Shearer. A petition signed by a large number of public school pupils and others, asking that the Legion rooms be turned into an "open house" during the winter months was granted and the doors will be open to the public commencing on Saturday evening. A number of applications for membership was received and turned over to the proper committee. The Post endorsed the American Educational system and will co-operate in advancing the same to a higher plane. Plans were discussed by which the social conditions of the town could be bettered and arrangements made by which the young people can meet socially and spend an hour or two in harmless amusements and recreation during the long approaching winter evenings.

Prof. Grant Norris, the hard working principal of our town public schools, will address the Parent Teachers' Association at Houtzdale on Friday evening of this week. If the citizens of that town and region round about desire to hear something very interesting and profitable to themselves they should turn out en masse to hear him.

Miss Laura Walter, English and Latin teacher in the High School, no providential interference, expects to spend the week end with her parents and friends in East Freedom, Blair County.

Miss Mildred E. Tate, one of the instructors in the High School building, contemplates spending several days the latter part of the week with her parents at Duncansville, Pa.

The football squad will meet Hollidaysburg on Saturday of this week on the home field. The boys are deserving of a rousing crowd at this game. Let all turn out and show them that we appreciate the way they lost at Williamsport and Indiana. Our team is in the very best of repute and if the people will come out to the game on Saturday afternoon they will see some nice foot ball work.

Four air planes passed over this place yesterday afternoon in a bunch. They must have gotten away from regular route for they came back

and made a semi circle working their way further north. The machines made noise enough for a train load of coal passing over the B. & P. head bridge at foot of State Street.

Harold Smith, District Deputy of Illini tribe No. 362 assisted by Great Prophet Carl B. Peters and Great Samnap Dewey Hummel, installed the following officers in Illini tribe No. 362 I. O. R. M. last evening: Prophet, Ernest Wise; Sachem, Ellis Cook; Junior Sagamore, Blaine Cleaver; Junior Sagamore, Frank Harley; 1st Samnap, Miles Sarvey; 2nd Samnap, Ray LaPorte; 1st Warrior, Chas. Williams; 2nd Warrior, Harry Bloom; 3rd Warrior, Carl Bunnell; 4th Warrior, Geo. Kaut; 1st Brave, James Rider; 2nd Brave, Ray Smith; 3rd Brave, Walter Fullerton; 4th Brave, George Phillips; Guard of the Forest, Lloyd Burger; Guard of the Wierman, James W. Gert.

The following letter to Mr. and Mrs. M. A. Caldwell will explain itself:

At a meeting of the Curwensville Teachers' Association, October 9, 1922, a resolution was unanimously passed thanking Mr. and Mrs. M. A. Caldwell for the delightful and interesting presentation of a Greer song Club. No one before have brought such a gift manifested in such a delightful and enjoyable way. Your kindness, consideration and hospitality have reached us beyond the expression of words. We are glad to have you as our dear friends, for this you have been, and for this life-giving episode please accept our heart-felt gratitude.

The above letter was signed by every teacher of the Curwensville Schools. Mr. and Mrs. Caldwell have made themselves very popular to the teachers. Mr. James Shoridan, our popular grocer, contributed very materially to the enjoyment of the occasion. He too, came in for a vote of thanks to be delivered by Mr. Tate, Miss Calgrove and Miss Whitaker. These teachers have not flattered us with a copy of their resolutions, but doubtless it was as heartily worded as the above letter to Mr. and Mrs. Caldwell. Prof. Norris says that such meetings give more of the human touch to the school work and brings the teacher to a more direct appreciation of nature and child life.

Nature Has Made Provision.
Animals get enough nitrogen from the air to protect nature's balance. Growing plants and animals, by the most remarkable harmonic processes in nature, maintain the proportion, oxygen in two pounds of air 23 and nitrogen 77. Man cannot disturb this ratio by little nitrogen concentrators.

Sun Worshiped in Early Times.
Centuries ago the sun was worshipped by practically every race on the face of the earth. Babylonians, ancient Egyptians and Armenians, Assyrians, Aztecs, Etruscans, Americans and several others had their own sun gods.

Today.
There is a thing called yesterday, but that is only the dust-bin at the door into which we cast our refuse, our old sins, our worn out souls. There is a thing called tomorrow, bursting with far better things than those which we have discarded. But in today the whole passionate force of the universe is poured, and therefore today is our chance. S. P. B. Mails.

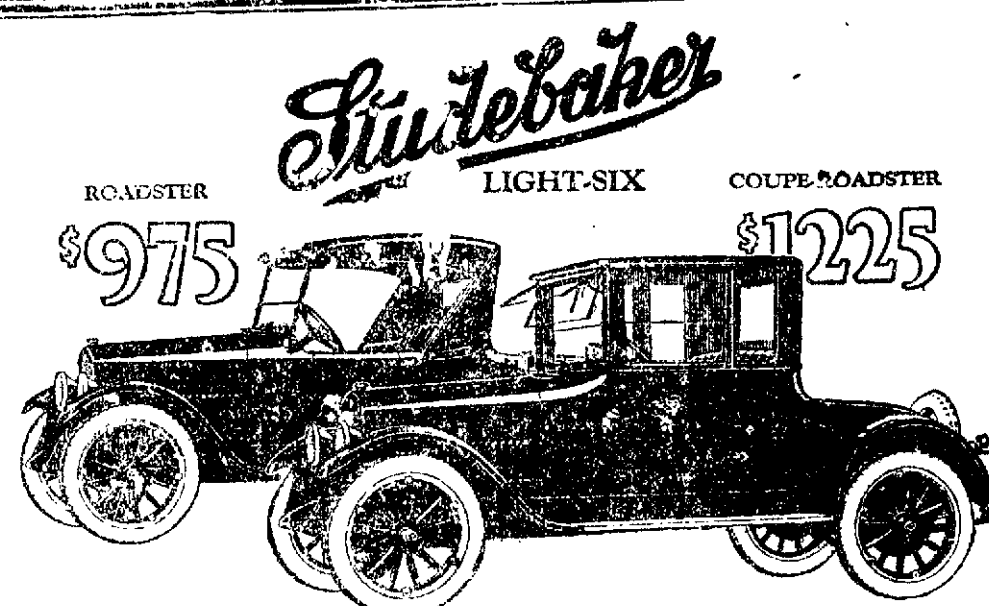

Civilization Unjustly Blamed.
Decayed teeth have been found in a skull thousands of years old. Impacted wisdom teeth can be found in skulls taken from the shell mounds around San Francisco Bay and exhibited in the ethnological museum of the Associated Colleges. The theory that civilization causes such troubles is no sounder than the decayed notions.

For Steaming Eyeglasses.
When going into a crowded room in cold or damp weather, eyeglasses steam so that it is almost impossible to see. If rubbed with vasoline and cleaned well, the glasses will not gather this moisture. From the Designer.

THE OLD HOME TOWN By Stanley.

THERE'S A LOT OF FOLKS BUYING WORKMAN'S BREAD THESE DAYS THAT NEVER BOUGHT IT BEFORE. THERE'S A REASON.

The Studebaker Light-Six Roadster and Coupe-Roadster were primarily built for business use. In meeting the urgent demands of business, they naturally have fulfilled the needs of the small family. Each is built for hard usage, day in and day out. And as they are completely Studebaker built—you know they will stand up under hard going. The bodies are attractive, roomy and thoroughly comfortable for all-day travel. Ample luggage space is provided under the rear decks. There's an internal hot-spot to reduce gasoline consumption to a minimum. Valves are inclined at a 20 degree angle to give a new measure of power, greater flexibility and better acceleration. Crank shaft and connecting rods are machined on all surfaces, thus eliminating vibration and insuring longer life to the motor. Studebaker low prices are made possible by great volume and complete manufacture. Studebaker quality is traditional.

The Studebaker Light-Six Coupe-Roadster seats two passengers; has side coach lamps, rain wiper and windshield wiper, eight-day clock. The three-passenger Roadster has cow lights, storm curtains, open rear door, large plate glass window, rear curtain, and inside and outside door handles. Both models are upholstered in genuine leather; have ample space under the rear deck for luggage; ignition and thief-proof transmission locks, and cow ventilator.

Awful.
A woman at Wilkesden, called to speak regarding the character of another, declared: "She is most awfully respectable—awfully so."—London Tit-Bits.

Hint for Amateur Painters.
When painting or varnishing soft wood, always first paint the wood with shellac and let it dry before painting or varnishing. This saves about half the paint and gives a much harder and smoother surface to the wood.

OXIDAZE TABLETS Made With Essential Oils For Politicians -- Auctioneers Clergymen--Lecturers Singers

Anyone who speaks or sings in public whose voice is apt to grow husky or weak from the strain, will find that one Oxidaze tablet slowly dissolved in the mouth before speaking or singing, will make a world of difference. The voice stays strong and clear and natural even during an unusual strain.

Thousands of people have testified to the remarkable value of these pure essential oil tablets, which bring such quick relief in cases of Hoarseness, Loss of Voice, Soreness, or Ticking in Throat, Bronchitis, Bronchial Irritation, Bronchial Asthma, Coughs, Colds, and as a preventive against Grippe, Influenza and Pneumonia.

One small inexpensive package of "Oxidaze" tablets will quickly prove the value of pure essential oil in cases of this kind; if they are always kept in the house for use in case of emergency, they may save you many days of serious illness or discomfort. Bloom's Drug Store or any good druggist can supply you.

McCARTY'S

By McManus

FLAPPERS OF 1922 WILL MAKE GOOD MOTHERS

By LUCILE F. SAUNDERS
(United Press Staff Correspondent.)
New York, Oct. 11.—"Flappers are going to make good mothers for the coming generation."

This is the declaration of Miss Marjorie Martin, the young Brooklyn woman who has just been made head of the First National Standardized Health Exhibit put on this month. She is the first woman to hold a national post of this character.

"I haven't a single 'don't' to lay down to the modern girl."

"I can't understand why we have all this worrying about Mother Nature not keeping on the job. The good wins out and our exhibit is just to show how to help the cause along."

"The mother of the future is going to be better than the girls of the sixties, who thought it improper to have limbs, to say nothing of exercising them."

"The tomboyish reaction of the flapper is wholesome after the era of sophistication we have had."

Miss Martin admits that if she has no "don't," she has a list of "do's" suggestions. Here are some of them.

"Do take as much care of your body as you would of your flivver and when a nut or a bolt gets loose use proper tools to get it back in place."

"Do get back to the ideals of simplicity of two centuries ago."

"Do give your skin the same chance to breathe as your nose. You wouldn't put clay there, so don't wonder about

it if your plastered complexion gives up the ghost."

"Do oil your crank shafts and brain cells with good books and good music. Health is not only bodily comfort, but contentment and peace of mind."

"Do get out of doors enough. The health of Brooklyn must have improved 150 per cent, when we had a street car strike and the people had to walk. The most pernicious habit in America is spending that extra five minutes dallying at the office so you have to take a car for a short run."

"And as for the married couples, do have the grit to begin where your father and mother began instead of waiting until middle age to begin where they left off."

Miss Martin thinks the future generation is going to be the most beautiful the world has ever known because it knows how to take care of itself. Most of the real faults of flapperism she blames on parents.

"So far as booze is concerned," she said, "what can you expect of them when their own fathers and mothers are such persistent lawbreakers that it seems smart to imitate."

"Cigarette smoking did not start with this generation, nor will it end here. It will quit of its own accord when the medical profession has learned the exact amount of harm it does."

"Girls are even more sensible about what they eat. The idea that they lunch on ice cream sundaes, belongs in the same class with the mother-in-law joke."

Pennsylvania, the condition last year and the ten year average condition on October 1 are as follows: GRAPES 90, 40, 73; PASTURES 65, 83, 87; CLOVER SEED 80, 69, 67; FIELD PEAS 82, 91, 89; FIELD BEANS, the average yield of grain this season is estimated at 90 per cent of a normal as compared with 93 per cent last year and 85 per cent, the average yield for the past ten years. The average harvested is estimated the same as a year ago. TOMATOES. The yield this season is estimated at 98 per cent of a normal as compared with 92 per cent last year and 86 per cent the average yield per acre this season is estimated at 61 tons as compared with 5 tons last year and 51 tons, the average yield for the past ten years. The average harvested this season is 112 per cent of last year's average. ONIONS. The yield of this season's crop is estimated at 200 bushels per acre as compared with 134 bushels last year and 193 bushels the average yield for the past ten years. The average harvested this season is estimated at 5 per cent more than last year.

First Steam Transatlantic Trips.
The American vessel Savannah, 6,600 tons, crossed the Atlantic from Savannah, Ga., to Liverpool in 1819 in 29 days 11 hours. The trip was made partly under steam but mainly by sail. In 1833 the Royal William, of 830 tons, built in Canada, made the first transatlantic voyage entirely under steam.

Grasshoppers' Favorite Diet.
When various spring grains are available the grasshoppers prefer oats to any of the others, reports a United States Department of Agriculture investigator in Montana. However, when food is scarce the hoppers will not go far out of the way to search for the plants that please their palates most.—Agricultural Department Bulletin.

Ants Too Much for Steeplejack.
Ants were swept up by the bushel at Shakerford, near Aldershot, on Saturday. They had been smoked out from the church spire, where they had prevented the work of the steeplejack who was carrying out repairs.—London Times.

Idle to Remember Past Lapses.
Act up always to your convictions, and when you have been unfaithful bear with yourself, and resume always with calm simplicity your little task.—Madame Guyon.

The "Lantern Cooler's" Profession.
Among the theatrical agencies when talent is to be employed for all occasions a new calling is that of "lantern cooler." What is meant is that in some small movie shows a variety turn is put on between the reels whilst the projector recovers from a passionate six reel film.

First Step Important.
We are masters of our first step and slaves of our second.—Prof. Fried rich Meisner.

First Taste of Cocoa.
The manufacture of cocoa and chocolate, one of the principal industries of Holland, was introduced into that country as long ago as 1679.

Ocean Reclaiming Island.
Rockall, a small island 250 miles north of Ireland, has sunk three feet in the last 33 years.

"The French Fury."
"The French Fury" is a name given to a treacherous attack on Antwerp by four thousand French soldiers under the Duc d'Angoulême January 17, 1858. The citizens repelled the attack, killing about one-half the French and taking the rest prisoners.

First Step Important.
We are masters of our first step and slaves of our second.—Prof. Fried rich Meisner.

First Taste of Cocoa.
The manufacture of cocoa and chocolate, one of the principal industries of Holland, was introduced into that country as long ago as 1679.

GLASS OF SALTS
CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid waste so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it is no longer a source of irritation, thus often ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

CROP REPORT

September was unusually dry and all crops have suffered to some extent. Corn ripened in advance and will result in some loss of weight. There has been very little damage from frost. Fall plowing is progressing but has been somewhat retarded by dry weather, according to the report issued today by G. L. Morgan, U. S. Agricultural Statistician, Bureau of Agricultural Economics.

CORN
The condition of the crop on October 1 was 84 per cent of a normal indicating a yield of 40.7 bushels per acre and a total production of 64,735,000 bushels as compared with 76,272,000 bushels last year and 63,707,000 bushels, the average production for the past ten years.

SPRING WHEAT
The preliminary estimate of the average yield per acre of this year's crop is 15 bushels and a total production of 225,000 bushels as compared with 225,000 bushels last year and 270,000 bushels, the average production for the past five years. The quality of this year's crop is 90 per cent of a normal as compared with 86 per cent last year and 90 per cent, the average quality for the past five years. It is estimated that 42 per cent of the total wheat crop has been marketed to October 1, as compared with 40 per cent last year and 28 per cent in 1920.

OATS
The preliminary estimate of the average yield per acre of oats this year is 32 bushels and the total production 39,618,000 bushels, as compared with 35,283,000 bushels last year and 38,906,000 bushels, the average production for the past ten years. The quality of this year's crop was 89 per cent of a normal as compared with 81 per cent last year and 89 per cent, the average quality for the past ten years.

BARLEY
The preliminary estimate of the average yield per acre this season is 24 bushels and the total production 288,000 bushels as compared with 280,000 bushels last year and 287,000 bushels, the average production for the past ten years. The quality of this year's crop is 92 per cent of a normal as compared with 90 per cent last year and 91 per cent, the average quality for the past ten years.

BUCKWHEAT
The condition of the crop on October 1, or at time of harvest was 82 per cent of a normal, indicating an average yield of 20.1 bushels per acre and a total production of 4,663,000 bushels as compared with 5,175,000 bushels last year, and 5,310,000 bushels, the average production for the past ten years.

shells, the average production for the past ten years.

POTATOES
The condition of White Potatoes on October 1 was 81 per cent of a normal, indicating a yield of approximately 98.8 bushels per acre and a total production of 26,088,000 bushels as compared with 21,586,000 bushels last year and 24,435,000 bushels, the average production for the past ten years. Sweet Potatoes. The condition of the crop on October 1 was 85 per cent of a normal indicating a yield of 119 bushels per acre and a total of 238,000 bushels as compared with 248,000 bushels last year and 209,000 bushels, the average production for the past five years. The crop in Maine this season is estimated at 21,411,000 bushels; New York 36,770,000 bushels; Michigan 27,274,000 bushels; Minnesota 38,396,000 bushels; Wisconsin 37,638,000 bushels. The total WHITE POTATO crop of the United States is estimated at 433,915,000 bushels as compared with 348,823,000 bushels last year.

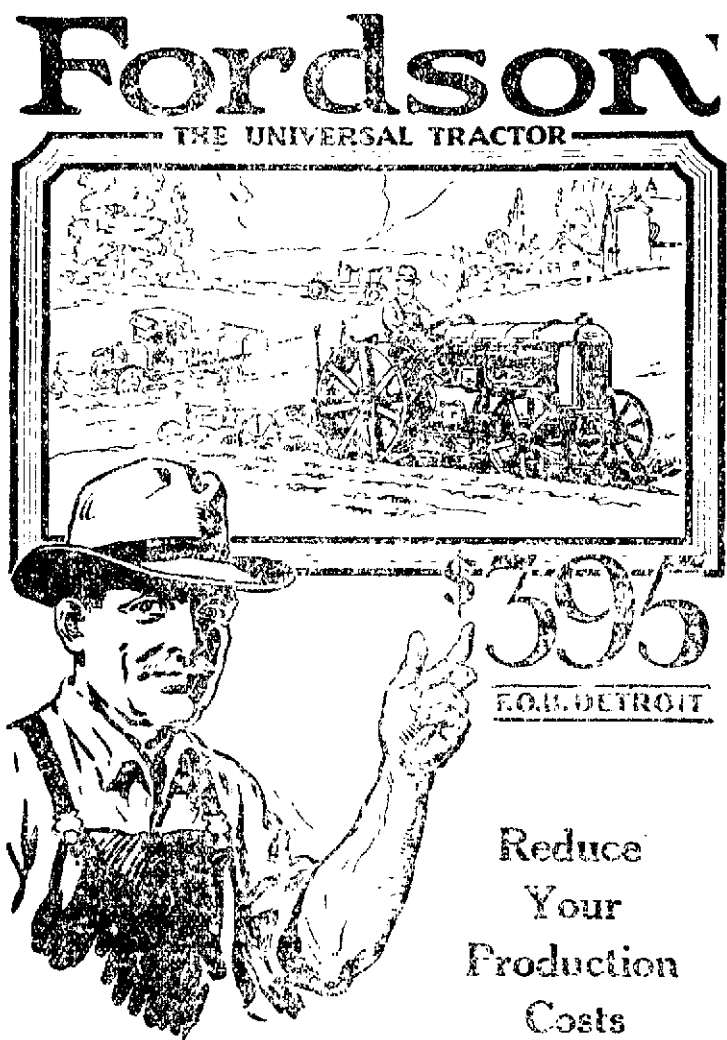

TOBACCO
The condition of the crop on October 1, or at time of harvest, was 84 per cent of a normal, indicating a yield of 1344 pounds per acre and a total production of 55,104,000 pounds as compared with 61,320,000 pounds last year and 55,611,000 pounds, the average production for the past ten years. While this year's crop is about the average in weight there has been considerable hail damage and the growth is very uneven.

APPLES
The condition of the total or AGRICULTURAL crop of October 1 was 63 per cent of a normal indicating a production of 11,760,000 bushels as compared with 12,008,000 bushels last year and 768,000 bushels, the average production for the past three years. The COMMERCIAL crop is estimated at 1,245,000 barrels as compared with 221,000 barrels last year and 840,000 barrels, the average production for the past three years. The COMMERCIAL crop in New York this season is estimated at 5,961,000 barrels; New Jersey 525,000 barrels, Delaware 192,000 barrels, Maryland 325,000 barrels; Virginia 992,000 barrels, West Virginia 945,000 barrels. The total COMMERCIAL apple crop of the United States is estimated at 31,639,000 barrels as compared with 21,201,000 barrels last year.

PEARS
The condition of the crop on October 1 was 77 per cent of a normal indicating a production of 616,000 bushels as compared with 220,000 bushels last year and 495,000 bushels the average production for the past three years.

Reduce Your Production Costs

Farming, like every other business, must cut down the overhead.

It is not a question of being able to afford a Fordson; it is a question of being able to continue farming on the old too costly basis.

The farmer's problem is not all a sales problem; it is also a production problem. He must cut down the cost of production.

The Fordson does more work at a lower cost and in less time than the old hand methods.

Let us give you the proof. Write, phone or call today.

NUMBER 239

WEALTHY PITTSBURGH MAN'S DEAD BODY FOUND AT CRESSON

Alfred Kaufman, Missing From Home Since A Week Ago, Found In Swamp Near Cresson.

MAY BE A SUICIDE

Cresson, Pa., Oct. 12.—The body of a man found in a swamp between Cresson and Hogshead with a bullet wound in his head was positively identified today as that of Alfred Kaufman, a wealthy Pittsburgh real estate dealer, who disappeared from his home there about a week ago. A reward of \$5,000 had been offered for information as to his whereabouts.

Carl Kaufman, brother of the dead man, positively identified the body and after the coroner's inquest had it removed to the family home in Pittsburgh.

County Detective of Cambria county, said that every indication pointed to suicide but the members of Kaufman's family claim that due to the absence of powder marks on the body Kaufman could not possibly have shot himself. A revolver was found within a short distance of the body.

WORLD'S SERIES MELON SPLIT IS NOT SO JUICY

New York, Oct. 12.—The total receipts of the World's Series baseball games were \$605,475.00, of which \$120,564, the receipts of the second game, went to charity. Of the remaining \$484,921, the players, including the members of the two teams in each league finishing second and third, get \$247,309.71. Seventy-five per cent of this amount or about \$185,482, is to be divided among the members of the two World's Series players and the other \$61,827 to the runners up in the race.

The champion Giants get \$111,289 to split among themselves, but it is rarely that this division is an equal share, there always being some players who get a half share or possibly a third share. It is impossible, therefore, to tell accurately what the average slice will be. The prospect is, however, that each player will receive about \$4,470 for his five days' work. This is far from being a record breaker.

The losing Yanks get the balance, it being figured that each player will secure \$3,225.

Standard Oil Declares Stock Dividend And Is To Increase Capital

New York, Oct. 11.—Following the lead of other Standard Oil companies Chairman A. C. Bedford, of the Standard Oil of New Jersey, announced today that a special stockholders meeting has been called for November 8 to act upon a proposal of the directors to increase the authorized capital stock of the company from \$110,000,000 to \$625,000,000 and declared a stock dividend of four new shares of common stock or a 400 per cent stock dividend for each share of common. The par value of the new shares will be \$25, the same as at present.

The directors also explained that they felt the shareholders should be advised that in view of the requirements of the company for capital they had no purpose to increase the aggregate amount of dividend disbursement. The present dividend is on the basis of 20 per cent common stock annually.

When this new financing has been completed there will be \$500,000,000 par value outstanding. The balance of the proposed increase, about \$225,000,000, will be held in the treasury to meet such needs as may arise, it was stated.

SANTA FE LIMITED ROBBED BY LONE BANDIT IN KANSAS

Kansas City, Mo., Oct. 12.—The California Limited, one of the crack passenger trains of the Santa Fe, was robbed last night just outside the city limits. The lone bandit, who was a negro, boarded the train as it pulled out of the yards and went thru the pullmans thoroughly and after securing the loot slowly prowled thru the balance of the coaches, on the train. The exact amount of the loot was not given by the conductor.

The first news of the hold-up was given out when the conductor threw off a note at a small way station apprising the station agent of the robbery.

The negro leaped from the fast-moving train and no trace of him could be found. The conductor was asked by railroad officials for a detailed report and this could not be secured until the limited reached the end of the division.

ALTOONA WILL BE GREATEST RAILWAY CENTRE OF NATION

Altoona, Oct. 12.—The Pennsylvania Railroad company has awarded the contract for the construction of the great new machine and erecting shop at Juniata to the McClintic-Marshall company, with offices in Pittsburgh and other cities and the work of building the structure has already been taken up by the firm.

This is the largest of the group of new buildings that will be erected by the company in Juniata under the program of improvements announced by officials during the past summer. Work on the concrete storehouse, which was started first, is now under way.

The new machine and erecting shop will be the largest yet built by the company in this vicinity and it will be 340 by 685 feet in size, built with structural steel concrete and brick, while there will be two crane runways 720 feet long, one with a span of 101 feet and the other a span of 90 feet. The framework of the building will be of steel and the walls constructed of brick.

To Be Locomotive Shop.

This shop will be used for building new locomotives and repairing old ones. Provision will be made for the accommodation of forty-nine locomotives at one time, which is equal to the total capacity of Nos. 1, 2 and 3 shops at the Altoona machine shops.

The locomotives erecting bays will have two 250-ton capacity electric traveling cranes for lifting the locomotives and six fifteen-ton capacity electric traveling cranes for the lighter work. The machine bays will have two twenty-five ton capacity electric traveling cranes, together with a number of job cranes ranging in capacity from one to eight tons.

Work has already been started in preparing the ground for the great new shop. Three big steam shovels will be used in the excavating work, two of which already are on the ground and in operation, while others will shortly be placed in service.

Hundred Engines a Month.

When the shop is completed and in operation it will have a capacity of 100 engines per month. It is planned to have it completed and ready for service by next May or June.

The new shop at Juniata is one of the fundamental improvements of the company in this locality, the other being a similar plant that will be erected later at Sixteenth street, this city, which will be located where the present engine house stands.

The other improvements include the storehouse, the removal of the scale shop, changing the present erecting shop to a tank shop, the removal of the storehouse and using it for a cab shop and changing the tank shop to machine shop No. 2 at Juniata; the remodeling of the freight car shop, the car shops and the enlargement and modernizing of other Altoona machine shops.

FINANCIAL EXPERT DECLARES BUSINESS IN HEALTHY SHAPE

F. C. Carles, Statistician For Harper & Turner, Gives Valuable Advice To the Firm's Clients.

MANAGER'S GUESTS

That general conditions affecting the bond investment market are good and that this class of investment, one of the less speculative, is certain to net gains to their owners in addition to the interest, was the belief expressed last evening by F. C. Carles, statistician for Harper & Turner, a bond house of Philadelphia, in an address given here last evening. Mr. Carles is an expert on bond investments, who holds one of the most important positions in the financial world and it was indeed a treat to hear such an array of business facts as was presented by him in the short space of time allotted.

It was through the good offices and thoughtfulness of Mr. L. A. McDowell of Clearfield, district manager for Harper & Turner, that Mr. Carles was brought here to meet the clients of the firm in Clearfield, Centre, Indiana and Jefferson counties, and a fine dinner was served at The Jordan to the invited clients and guests. Mr. McDowell introduced Mr. Carles as a man who did not know everything but who knew as much about bonds as any other man, and he believed, more, and all present agreed with Mr. McDowell at the end of the evening.

At the beginning of his address Mr. Carles launched into a discussion of general business conditions which he declared were highly satisfactory to those honestly desiring stable business. His reasonings were not based on volume of business, high profits and booms but rather on the more substantial and healthy conditions of finance which have resulted in firmer prices, lower interest rates, etc., which make it easier to do business and eliminate the risks. He then discussed the possibilities of business from all angles, interpreting the events of the current period in the light of his experience since 1895 as a student of investments and the relation of events to finance.

After this discussion, inquiries were invited as to particular issues of bonds and for over an hour an open forum was held during which no less than twenty-five issues were explained.

Mr. Carles is indeed a master in his chosen profession and it is to be regretted that investors as a whole do not avail themselves of the services of such houses as Harper & Turner and the many others who freely and willingly offer such service and who work with the banks in their respective communities in safeguarding investors. This service can be had from your bank or from the firms direct.

The pleasure of the evening was greatly enhanced by several vocal selections by Miss Jean Harris with Miss Smith at the piano.

Among those present were Dr. S. S. Davis, John Wrigley, James Wrigley, and Richard Kennard, of Clearfield; A. B. Lansberry, of Bradford township; Fred S. Dunlap and Mr. Kurtz, of Claysburg; Howard Thompson and Orrie Norris, of Curwensville; H. B. Powell, R. I. Fulton, Bowman Brown and W. Wallace Smith, of the County National; P. T. Davis, L. T. Gaulin and George Bigler, of the Clearfield Trust Co.; Jas. Mitchell, Jr., of the Clearfield National; L. C. Bence and Alva Brothers of Commodore, Pa.; Haskell Kunes and A. L. Shope, of the Karthaus State Bank; John Howe and S. N. Kelso, of the Morrisdale State Bank; Dr. Jackson and Mr. Hagstrom of the People's Bank of Osceola; J. M. Stewart and Mr. McFarland, of the Clymer National; W. B. Clark, of the Mahaffey National; Curtis E. Elkin and C. B. Bloom, of the Rossiter State Bank; Linus Elkin, of the Timplin National; Jas. J. Morgan and Robert E. Keck, of the Snow Shoe Bank; Howard Stewart and G. A. Stewart, of Clearfield; Mr. Hunter and Mr. Lord, of Irvonia.

KNIFE IS FOUND NEAR SCENE OF DOUBLE SLAYING

Schneider Collapses In Jail; Attorney Says Authorities Are Not Giving Boy A Chance.

IN SERIOUS SHAPE

New Brunswick, N. J., Oct. 12.—Discovery of a knife with which Mrs. Mills may have been murdered brought out a new clue for the authorities to work on today in the Hall-Mills double murder mystery. It was developed during a rapid questioning of the proprietor of "Smith's Place" a dive on the outskirts of the city.

Following a popular demand it looks as if Clifford Hayes will be released as the authorities cannot fasten the crime on him. "I have every confidence in Clifford and do not believe he murdered my mother" said Charlotte Mills today, as she demanded the arrest of the real murderer by the officials.

Another clue which is being brought to the light comes from an eight-year old boy, John Lyons.

On the day following the double tragedy he ran to his mother with a blood stained kitchen knife which he said he found within one hundred and twenty-five feet of the place where the bodies were found. "Look, Ma, I've got the knife that killed the lady," Mrs. Lyons admonished the child to throw the knife away as she did not wish to be drawn into the affair but later reconsidered and saved it.

Schneider Collapses

New Brunswick, N. J., Oct. 12.—Raymond Schneider, who has accused his pal, Clifford Hayes, of the murder of the Rev. E. W. Hall and Mrs. Mills, collapsed in his cell today. Schneider broke down under the strain of the merciless grilling given him by the authorities. He is still in his cell in the Somerville jail and is in a serious condition.

Attorney Sedan, Schneider's counsel, said that he was not getting a fair chance from the authorities. "Every time I try to talk to Schneider they surround the cell" he said today. Attorney Haggerty, counsel for Hayes announced today that he had some new light on the situation in a statement that one of the vestrymen of the church of St. John, the Evangelist, was "fairly upset" when he attempted to attend to his business on the day following the Hall-Mills murder, and that within a day or so left for Philadelphia.

SENATOR CONNELL LEFT TWO MILLIONS

Sranton, Pa., Oct. 12.—The will of the late Senator Connell which was filed today disposed of an estate amounting to about two million. The will sets aside a goodly amount for the Elm Place M. E. church, leaving the balance of the vast estate to his widow.

ONE KILLED IN ITALIAN FEUD

Uniontown, Pa., Oct. 12.—A deadly revolver battle arising from a feud between two factions among the Italians of this city resulted in one death and another Italian badly wounded. Angelo Cambria is the dead man and Letit Camisele is in the hospital here at the point of death.

ANOTHER CHAPTER IN FOURTH WARD ELOPEMENT MIXUP

Viola Vallimont Luffletti and Jim Rossa, of East End, Picked Up At Rochester, N. Y.

SEEKING A LICENSE

Viola Vallimont, the East End young girl, who, on Aug. 9th last, eloped to Cumberland, Md., with Frank Luffletti, a young Italian resident also of the East End, and was married, is the central figure in another escapade which may or may not have some connection with the other affair, which resulted in Luffletti being convicted in criminal court last month of taking away and marrying without the consent of her parents a girl under 16 years of age, the jury finding from the evidence Viola was under 16 when married.

No final disposition of the case has been made as yet, Luffletti having been called up for sentence last Saturday but again remanded to jail by Judge Bell pending further investigation into the age of the girl.

Some time between 11:30 o'clock Monday night and 6:30 Tuesday morning Viola disappeared from her parents' home in East End. The girl's father notified District Attorney Arnold of Viola's disappearance and a quiet search was instituted for her, but no clue to her whereabouts was unearthed. A check-up of the young men of East End did disclose the fact that one Jim Rossa was also missing.

An intimation had been given the Vallimont family some time ago that there was a possibility of the young woman being spirited away and the police of northern Pennsylvania and New York State were notified to be on the lookout for the girl.

Just after dinner yesterday Chief of Police McMullen received a telegram from the Chief of Police of Rochester, N. Y., bearing the information that a couple giving their names as Jim Rossa and Viola Vallimont and claiming Clearfield as their home, had been picked up at Rochester and were being held on a vagrancy charge. When arrested, the young people declared they were in search of a marriage license and intended getting married.

Chief McMullen took his telegram to the district attorney's office and finding that Mr. Arnold was engaged in a criminal suit before a DuBois alderman he was called on the 'phone and given the contents of the telegram. The district attorney then telegraphed the chief of police at Rochester to hold the couple until the sheriff of Clearfield county came after them.

Information charging a criminal offense will be made against Rossa and the couple will be returned to Clearfield just as soon as the necessary legal papers can be prepared.

Harold Flegal was taken to the Hospital to be operated on for appendicitis and is getting along as well as can be expected.

FLYERS IN BATTLE FORMATION CAUSE CONSTERNATION IN BOOTLEGGER BUND

Four airplanes in battle formation attracted a great deal of attention from Clearfield people yesterday afternoon by their actions in the sky. They flew around and about over the town no less than three times. By reason of their peculiar actions the word got about that the District Prohibition enforcement officers from Punxsutawney had "taken to the air" in the search for the many moonshine stills said to be located in these hills, and the local Bootleggers' Guild were on the point of ordering a battery of anti-aircraft guns for the protection of their source of supply.

Before the order could be sent it was learned that the airplanes were enroute to Detroit to take part in the field meet to be held by the Aeronautical Engineers, to be participated in by army and navy planes. The

FIREMEN'S RELIEF BENEFITS BY DIVVY OF INSURANCE FEES

Harrisburg, Oct. 11.—Treasuries of cities and boroughs in Clearfield county will be enriched by the apportionment of fire insurance funds. The amount allotted to Clearfield county on the basis of the 2 per cent tax paid by Foreign insurance companies doing business within the State as per acts of 1895, 1909 and 1919 is \$4,615.51. Clearfield receives the largest amount, \$1,674.30 and DuBois the second largest, \$1,411.39. Apportionment of amounts to other cities and towns in Clearfield county is as follows:

Brisbin	\$ 27.11
Burnside	17.07
Chester Hill	27.90
Clearfield	1,674.30
Coalport	71.46
Curwensville	389.94
DuBois	1,411.39
Glen Hope	23.05
Grampian	22.08
Houtzdale	226.58
Irvonia	43.11
Lumber City	8.78
Mahaffey	101.35
Newberg	5.08
Osceola Mills	394.87
Ramey	47.35
Troutville	2.52
Wallacetown	5.74
Westover	80.38

Free Band Concert Will Be Given Tonight By The Italian Band At 7:30

The Clearfield Italian Band will give a free concert in St. Francis school hall on South Second street this evening beginning at 7:30 o'clock in honor of Columbus Day. All lovers of good music are invited to be present.

In addition to the musical program an address will be made by J. P. O'Laughlin, Esq.

Prof. Anselmo, director of the band, has prepared the following excellent program for the occasion:—
Tannhauser R. Wagner
Trovatore Verdi
Sentimental Arr. by O. Anselmo
D'autrefois G. Silvestri
Wedding of the Winds J. T. Hall
Originale Arr. by O. Anselmo
Star Spangled Banner

SECRETARY MELLON WILL MODIFY THE OCEAN DRY RULING

Washington, Oct. 12.—The drastic regulations of the Prohibition board regarding the carrying of liquors within the three-mile limit was modified by Secretary of Treasury Mellon today. He announced that he would make full explanation of the modifications later. He said further that the measure was intended only to include the seizure of the liquor and not the ships whether American or foreign.

SUFFERED PARALYTIC STROKE

Perry Hurd, formerly employed at Cross' barber shop, suffered a paralytic stroke, while at work at the N. Y. C. yards yesterday afternoon and is now a patient at the Clearfield Hospital.

BOOSTER MEETING OF P. O. S. OF A. IS A HUGE SUCCESS

Loyal Oldtimers Flock Again To the Colors at Lodge Hall To Mingle With Later Initiates.

BIG ATTENDANCE

Washington Camp, No. 591 P. O. S. of A. and the local Camp of the P. O. S. of A. were hosts last evening at their lodge room in the Kurtz Building on Second street, to the different camps of both orders in this section and the spacious quarters were taxed to capacity to take care of the crowd. Large delegations were present from Woodland, Olanta, Grampian, Blye Ball, DuBois, Bellwood and Tyrone and a rousing old-time patriotic meeting was the result.

After the lodge had closed a short business session, the meeting was thrown open to all under the direction of Secretary Earl D. Yeager as chairman. Chairman Yeager made the visitors welcome in a few brief sentences and then took up the program of the evening which was opened by the singing of the opening ode, "Columbia," after which Rev. F. L. Bardens, of Blairsville, Pa., an enthusiastic member of Camp 591 for many years, offered an eloquent prayer. This was followed by the singing of "America."

The first speaker introduced by Chairman Yeager was Hon. W. I. Swoope, one of Camp No. 591's most distinguished members, who is a Past State President of the order. Mr. Swoope made one of his characteristically patriotic addresses which he opened by stating that he had joined the order just 26 years ago as an appreciated his membership as much today as the day he first joined. He recounted the accomplishments of the order during the last quarter century and highly complimented the membership on the great record they had made, stating that it was alone due to their efforts that the flag was placed upon every public schoolhouse in the land. The speaker touched upon the disrespect of law so widespread throughout our country since the war and said "we hear so much about the League of Nations and the League to Enforce Peace, but what is needed right here and now is a 'League to Enforce Law,' and every red-blooded American should enroll to see that the laws of his country, and all the laws, were rigidly enforced." Mr. Swoope closed by telling his audience the mission of the P. O. S. of A. was "Americanization" and urged all to be vigilant in the inculcation of American principles at all times. His remarks elicited vociferous applause.

The next speaker was Rev. F. L. Bardens, who did much in the past to put Camp No. 591 in the very forefront of the P. O. S. of A. camps in the State when he was located here. Rev. Bardens is an exceptionally forceful speaker and told his hearers that "vigilance in personal patriotism" was the crying need of the hour and that it behooved every patriotic son of America to be up and doing in his daily exemplification of the principles of the order and that eternal vigilance was as much the price of liberty today as the day the sentiment was first given utterance by that early day patriotic American who advanced the theory.

Rev. Bardens represented Camp No. 591 at the recent State convention at Johnstown and informed the members they would soon be notified through their lodge of the necessity to look into the histories being taught in our schools in order that the coming generations of young America might get the right idea of our early history. Rev. Bardens also urged everybody, both men and women to go to the polls on election day and make possible by united action the safeguarding of our liberties by the writing of the proper and necessary laws upon our statute books.

Hon. F. G. Harris followed Rev. Bardens. Mr. Harris was initiated in the same class with Era. W. I. Swoope and he too testified to the very great satisfaction membership in this sterling patriotic order gave (Continued On Page Two.)

LADIES' AID RETURNS THANKS

The Children's Aid Society wishes to publicly thank the Burnside Committee of the Society for their generous donation of canned fruit, vegetables, jellies, apples, etc. collected from the Borough and Township schools. Also to express their appreciation of the services of Mr. Wilson, General Manager of the H. & C. Telephone Co., who sent his truck to deliver the goods.

Thanks are also due to the friends of the children who at the home of Mrs. Martin Hughes of West Pine street did so much preserving and canning for the Home, and those who gave their cars.

MRS. J. CLYDE STAVER
Sec'y.

ATTENTION LUTHERANS

Services preparatory to the Holy Communion will be held in St. John's Lutheran church Saturday evening at 7:30 instead of Friday evening as previously announced, owing to the absence of the pastor from town. Special preparatory services Sunday morning at 10:15 for those who are unable to come Saturday evening.

BOOSTER MEETING

(Continued From Page One)

him. He paid tribute to Old Glory and displayed a small American flag which he had owned for forty-five years and which he carried with him on a trip he made through Europe several years ago. He gave his hearers a leaf out of his experiences on that trip in detailing to them the respect the Stars and Stripes forced from every manner of people the world over. Mr. Harris warmed to his task like the real old-timer he is and at the conclusion of his remarks was highly complimented for same by Rev. Bardens on behalf of the assembly, which gave Mr. Harris a rising vote of thanks for his patriotic utterances.

Hon. Joseph E. Phillips, the "Sage of Sanborn," who is a veteran in the P. O. S. of A. of thirty-one years' standing, was then introduced and made one of those happy little speeches which always gets Joe "a hand." He told of the struggles of the order in the early day and paid high compliment to the P. O. S. of A., which he styled one of Pennsylvania's earliest patriotic orders with a record of having furnished "first defenders" in three wars and was always found 100 per cent. right on every proposition affecting the liberties of the American people. During Joe's remarks he asked to have all those stand who had been members of Camp No. 591 more than twenty-six years and no less than seven of those present stood up.

District President James Blyler responded briefly to the request of Chairman Yeager for a speech and the speechmaking was closed by David Young, of Woodland, another old-timer and enthusiastic P. O. S. of A. worker for nearly a quarter century. At the close of the speaking program the ladies of the local P. O. of A. got busy and served the assembly with most appetizing refreshments to which all did ample justice, and after disposing of the refreshments all departed for their homes firm in the belief that Camp No. 591 and the P. O. of A. were delightful hosts.

The new Woodland band furnished the music during the evening and were the recipients of many flattering compliments for their excellent music.

SHOT AND THREW
MAN IN RIVER

Pittsburgh, Pa., Oct. 12.—Aided by the firemen of Avalon, the police of that suburb are today searching the Allegheny River and vicinity endeavoring to find the body of a murdered man, supposed to have been shot by Sam Miller, aged 35.

Miller walked into the Central Police station and told the desk man: "I have shot and killed a man down in Avalon and have thrown his body into the Allegheny river." Miller was held pending the result of the search.

Lying and Perjury.
A lie is a statement which is thought to be false by the person who utters it, and is intended to deceive; while perjury is a false statement made under oath.

IF SKIN BREAKS
OUT AND ITCHES
APPLY SULPHUR

Just the moment you apply Mentho Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place. Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness. You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur at any drug store.

BRIDE "BUMS" WAY
WITH HER HUSBAND

Haled Into Court, Judge Takes
Up Collection and Sends
Them on Way.

Chicago.—A honeymoon tour on the rods of freight trains ended for John Bower and his wife, Helen, each twenty-three years old, when they were arraigned before Judge John F. Bass, in Chicago, on charges of disorderly conduct. With \$15 collected in the courtroom, the couple finished their journey from Chicago to Grand Rapids, Mich., "on the cushions."

A special watchman passing through the Chicago railroad yards saw two forms huddled closely together on the rods of a freight train. They were

Arraigned Before Judge Haas.

taken to a police station. The desk sergeant looked with unconcern upon what he believed to be two dirt-bested men. They were dressed alike.

"I'm his wife," said the smaller one. "You're his what?" asked the sergeant, gazing at Mrs. Bower's clothing.

She admitted that she had dressed as a man in order that she might remain with her husband in his travels. And she added that she "would rather ride the rods with John than in a Pullman with any one else."

Bower said he was married January 2 and with his wife went to Cedar Rapids, Ia., on his honeymoon tour

and to obtain a position with his brother, a farmer there. When he reached Cedar Rapids he had only 50 cents. He failed to get work and he and his wife rode "blind baggage" into Chicago.

SLEUTH PLAYED BOTH ENDS

Chicago Detective Lived With Woman
He Had Been Hired by Husband
to Find.

Chicago.—The story of a detective living with the wife of a man who had sent him out to find her was told by Dr. Sebastian Becker of Chicago, who says the sleuth presented expense accounts which supported the couple when they were paid. A warrant has been sworn out for the arrest of Ray W. Smedley, the detective.

Becker's wife disappeared several weeks ago, her husband says, and Smedley came to him offering to find the missing woman. There began then, the doctor says, what he thought was a nation-wide search. Bills were received from all parts of the country.

Becker became disgusted when he had spent \$3000 in the hunt, he says and put another detective on the job. This man found the detective and Becker's wife living together in Chicago. They had been forcing Becker to support them. Smedley has disappeared.

WOMAN HELD AS ARSON CHIEF

Fire Marshal Gets Warrant After
Probing Several Fires in
Louisiana.

New Orleans, La.—Mrs. M. E. Crosby, widely known in Louisiana as "Arson Trust," in warrants sworn out by Conrad Leoz, state fire marshal after investigation of fires in several Louisiana towns. Warrants also were issued for Mrs. Crosby's two daughters and their husbands, Mr. and Mrs. H. R. Roney and Mr. and Mrs. J. D. Highton. Mr. Leoz announced.

Owl Takes Joy Ride
on Hand of Big Clock

Pottsville, Pa.—A large, solemn owl the other day perched on the hour hand of the big clock on the courthouse tower here.

The bird sat there several hours and shifted its position as the hand went around. A large crowd watched. The owl did not stop the clock, so it was not disturbed. It finally flew away.

OYSTERS
They're Here
Every Day

And they're mighty good oysters. They come from the great Chesapeake Bay oyster grounds, where the finest oysters in the world are grown. You'll find that they are fat, juicy and succulent and just what you have been looking for after the long time you have been without them.

We have the big ones for frying and the smaller ones for stews. You'll find them all just what you've been looking for to tickle your palate.

THORN BROS.

CLOTHCRAFT GUARANTEE

We hereby guarantee this Clothcraft garment to give satisfactory wear and service. We stand back of the retailer in assuring prompt and satisfactory adjustments should any cause for complaint or dissatisfaction arise.

THE JOSEPH FEISS COMPANY
Cleveland, Ohio.

WHAT THE CLOTHCRAFT GUARANTEE
MEANS TO YOU

It means that when you buy a Clothcraft garment you can be absolutely sure that it will give satisfactory wear and service. It means that the front of the coat will not break or lose its shape as long as you wear it. It means that you get the class of workmanship usually found only in higher priced clothing. It means, in short, that you can get good clothes—clothes that fit and look and wear well—at moderate prices.

We stand back of the dealer in assuring you perfect satisfaction, so that when you need another suit or overcoat you will want and ask for Clothcraft.

It is not often that the Clothcraft dealer is called upon to make good this guarantee, but should you ever have any complaint it will be adjusted promptly and to your satisfaction.

The Clothcraft guarantee insures you good clothing values and protects you against defect in material or workmanship.

THE JOSEPH FEISS COMPANY
Cleveland, Ohio.

We Add Our Own Guarantee To The Joseph Feiss Co.

ODDS AND ENDS AND THINGS

By J. D. C.

What appears to be steady rain, ranging from a slight drizzle to a fairly heavy shower, has been falling in a space about ten feet square in front of the house at No. 417 South Washington street, Alexandria, Va., since Sept. 29.

Every effort has been made to discover the reason for the seemingly freak rainfall. The Weather Bureau in Washington declares it a physical impossibility. A representative from the Bureau of Forestry, after an inspection, said the rain was not caused by the fall of sap from a nearby tree, as some have insisted. Hundreds from Washington and nearby points have flocked to see the freak.

A poplar tree adjacent to the spot where the rain is falling is putting out new leaves and buds as the apparent result of the showers.

Leaving America to take up his residence in England because, he said, there is no intelligent companionship among the idle rich in this country, George F. Brown of Stonebridge, one of the show places of Dedham, Mass., sailed Sunday on the White Star Line steamship Pittsburg.

"I am giving up America for England because I crave the intelligence of the English people. In America I find intelligence in the middle class that accomplishes the great play in making both ends meet. The rich class misses this pleasure.

"The middle class is the backbone of the country, the men that won the war, who make their wages with their minds. They go home sober, due to prohibition, which escapes the upper rich class, who get their supply of liquors from the bootleggers and nobody cares.

"I am going to England to join the leisure class that has intelligence which I could have enjoyed in America had I the luck to be born in the middle class."

Mr. Brown denied that he intended to forswear allegiance to the United States, but said that many of his ancestors were English.

A marker tablet indicating the site of the smelting of the first iron in Centre county will be unveiled on Oct. 30, near the entrance to the grounds of the Pennsylvania State College. The stone stack of the old furnace is still standing just outside of the town of State College where it was erected 130 years ago by Colonel John Patton and Colonel Samuel Miles, who were officers in the Revolutionary war. The tablet is to be placed there by the Pennsylvania Historical commission and the department of history of the Pennsylvania State College previous year.

The registration areas include a

large.

The iron from this old furnace was transported to Pittsburgh mills by mule-back, in the days long before railroads came into use. The furnace was operated from 1792 to 1803 and from 1825 to 1858, and marked the beginning of many similar industries in the central part of the State.

A record low death rate was established last year in the registration areas of the United States, according to an announcement by the Department of Commerce, which gave the 1921 rate as 11.7 a thousand population, against 13.1 in 1920.

The infant mortality rate for 1921 also decreased from 1920. The statement gave the rate for 1921 as 76 a thousand, and 86 a thousand for the population of 70,325,000.

The birth rate for 1921 was 24.3 a thousand against 23.7 a thousand in 1920.

The British Government, in the reply it will make almost immediately to the United States Government's suggestion for a mutual arrangement which will permit America's prohibition navy to search British vessels outside the three-mile limit, will point out with emphasis that Great Britain as a naval power cannot come to any such arrangement.

But Great Britain will assure the United States in the reply that it is regrettable that certain rum-runners with false clearance papers and dubious registration have been engaged in the liquor traffic from the West Indies and will promise that everything possible will be done to put an end to this.

Old Johnny Bull, in this emergency, will no doubt recall a certain "bloody-well" good licking he got himself for hopping aboard American boats back in 1812 and yanking off seamen he took a "fawney" to for one reason or another.

As Sponge Comes From the Sea.

If the sponge as brought up fresh from the seashore were a familiar object few persons would be in doubt as to its being an animal. When fresh it is a fleshy-looking substance, covered with a thin skin. Its cavities are filled with a gelatinous substance called "milk."

STOP ITCHING SKIN

Zemo the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin. Ask any druggist for a 25c or 50c bottle of Zemo and apply it as directed. Soon you will find that irritations, Pimples, Blackheads, Eczema, Blisters, Ringworm and similar skin troubles will disappear.

Zemo, the penetrating, catyifying liquid, is all that is needed for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

EUROPE'S WEAKNESS

It is related that the sultan of Turkey 300 years ago, after a disastrous war, ordered his people every morning to recite this prayer: "May the Angel of Discord, who has always been our ally, come again to our aid, and confound our enemies." The angel may or may not have heeded the Mohammedan prayers, but time and again there has been discord among European powers and every time Turkey has taken advantage of it. Again, there has been indecision and lack of harmony among European powers, and Turkey has made the most of its opportunity. Europe's weakness has been and is now Turkey's strength.

In the settlement of questions resulting from the World War, European powers largely looked to advantages to themselves. As advantages gained became apparent, jealousies resulted, and united purposes and action became impossible. Great Britain desired removal of the Mohammedan menace to her Indian possessions, and encouraged Greece to fight Turkey, though other nations opposed. This is why Great Britain alone today undertakes to prevent Turkey from regaining a foothold in Europe. British forces face a Turkish army that would have been an insignificant contingent in the World War, but is now powerful enough to menace not only Europe but India.

Before the conflict in the Near East is terminated Europe may be taught a very valuable lesson by Turkey. Great Britain especially may find it more advantageous to compose differences with her neighbors than to compromise with the Turk. The whole Near East question will undoubtedly have to be reviewed and readjusted, simply because Europe's weakness made Turkey strong.

COMPETENT FACT FINDERS (Philadelphia Evening Bulletin.)

President Harding has named a commission of the first order for the fact-finding task in the determination of the coal problem of the country. John Hays Hammond is a mining engineer of established reputation; George Otis Smith, director of the United States Geological Survey, brings an accumulation of research and experience which should be invaluable; Charles P. Neill, with long service in the government's dealing with industrial problems, has the confidence of labor; Dr. Edward T. Devine, a domestic economist of New York, knows the needs of the consumer. Such publicists as former Vice-President Thomas R. Marshall, Judge Alschuler, of Chicago, and Clark Howell, editor of the Atlanta Constitution, complete a body of men which, in its personnel, challenges criticism.

The commission has only advisory status. It has ample power to search out facts, but the enforcement of its recommendations rests with public opinion, pressing upon Congress or other governmental authority. The report is likely to be delayed for several months. It is doubtful if it can be ready on January 15th, the stated time. But whenever it shall appear, it ought not to find a public forgetful of the lessons which have been learned during the past summer. That experience ought to be kept in mind, continuously, so that when this report shall be made there shall be a public opinion, ready and insistent, to back it up and demand that its findings toward the solution of this perennial problem shall be made effective.

THE MESSAGE OF THE CARS

A car shortage is actually developing on the railroads. That is at once a good and a bad thing for business. Without the cars, goods can't be moved. But happy are the days when trade is crying out for transportation, when railroads are bending every effort to meet the demands upon them.

The figures for a two-week period in the last four years are illuminating. Here they are:

1919,—1,990,892 cars.

1920,—1,999,275 cars.

1921,—1,727,193 cars.

1922,—1,919,210 cars.

Business is hitting its stride again, and is already over the corresponding 1921 figure. A great industrial revival is sweeping the country. The indications are that it will last through the winter.

The railroads are the best barometer of general trade conditions. This increased activity means but one thing. Good times are on the way. That is the message of the freight cars.

In the course of several thousand years the truth may sink in that crime is to be attributed more to the innate evilness of some human nature than to any object supposed to make such natures criminal.

When the French envoy arrived at Smyrna, he was met in the harbor by Kemal, who kissed him on both cheeks. The harbor is congratulated on its escape.

WOODLAND BAND MAKES GOOD IMPRESSION

The Woodland Cornet Band, a comparatively new organization, made its appearance in Clearfield last evening for the first time and elicited much favorable comment from our people who saw the band in their nob by new suits and heard their music.

The band is composed of thirty-one members, a large number of whom are young fellows, with just enough experienced musicians to make a well balanced band with a little more training and experience for the younger men.

The boys are doing very well for the time they have been at it and Woodland has every reason to be proud of her band.

London's "Mansion House."

The official residence of the lord mayor of London was built between 1730 and 1733.

CLEARFIELD COUNTY BOY SOME GOLFER

Walter Swoope, fourteen-year-old son of H. B. Swoope of Madera, Pa., recently won the third division of the regular Overbrook Golf Club tournament near Philadelphia, winning his first match from George Hansen, 5 and 3; second match from H. J. McDermott, 1 up on 19th hole; third match from F. A. Bloont, 3 and 1, and his fourth match from C. P. Johnson, 1 up.

Silence Infectious.

It is always observable that silence propagates itself, and that the longer talk has been suspended, the more difficult it is to find anything to say.—Samuel Johnson.

Discovery Yet to Be Made.

Persians believe that on a certain charmed day—a secret which but few have ever discovered—the rose has a heart of pure gold.

Current Business Conditions

By GEORGE E. ROBERTS

(From the Monthly Bulletin for October Issued by The National City Bank of New York)

THERE is considerable discussion and difference of opinion as to whether another period of credit inflation and rising prices is in sight. The prices of many commodities are tending upward, wage advances signify higher industrial costs and the volume of bank loans is now increasing. What is the difference between legitimate and wholesome expansion and the unhealthy state which is called inflation?

If comparison is made with the situation before the war, conditions are now inflated but this is not changeable to the slight expansion as long as exchange rates are in which have taken place in the last few weeks. Prices have had a very considerable fall from the top, and a slight recovery from that fall, but this gain cannot be called secondary inflation. It looks like a recovery that always comes when the old stocks are exhausted and the industry gets fairly under way again. The fall of prices was uneven and in some cases too precipitate, and the entanglement of industry was too great to permit of supplying the necessary demands.

Although the war-time was anything but a period of depression, some of the effects were similar to those resulting from a period of depression. Industry in some lines fell behind the normal growth of the country, creating a deficit of supply, or accumulation of demand. This is true in housebuilding, in the construction of railway equipment, and in some other lines, and a revival has occurred in those lines. It is due to imperative needs, rather than to a belief that the bottom has been finally reached in construction costs, although the feeling doubtless prevails that prices are not likely to go lower until the existing shortage is in large part made up. The advance of wages is due in part to the revival of industry, but in large part to the immigration act.

It is quite evident that abnormal conditions in some of the industries are directly influencing prices at this time. The rise of iron and steel is mainly due to the coal strike, which has affected all industrial costs.

There is nothing about the attitude of buyers of general merchandise that indicates a desire to anticipate future wants. They are buying cautiously, for immediate needs only, and fighting advances, which is just the opposite of the common attitude when inflation is under way.

Conditions Favorable to Inflation

It is true that conditions are very favorable to an inflation of credit. We have a great number of independent banking institutions, actively competing with each other for customers, and the most effective way that has ever been found for giving customers is by the extension of credit. These banks have a great amount of money on hand, and a large part of it is in the form of cash. They have a large amount of money on hand, and a large part of it is in the form of cash. They have a large amount of money on hand, and a large part of it is in the form of cash.

COAL STRIKE IS IMMINENT UNLESS BASIS IS FOUND

Cleveland, Oct. 11.—Warning that another coal strike is inevitable April 1, 1923 unless certain conditions are removed, a sharp division of opinion between union and non-union operators over labor policies and a manufacturing body to the Congress to organize its household for self-examination marked the third day's session of the American Mining Congress which was devoted to an extensive study of the problems confronting the bituminous coal industry.

A resolution was introduced asking the Congress to declare as its principles: "That all disputes directly affecting the public interest which may not be settled by agreement shall be determined by judicial process."

"That any act in combination with others, which would be unlawful if done by an individual shall be unlawful on the part of all taking part, collectively or individually all of whom shall be subject to penalty."

"That every agreement, order, determination or conclusion by two or more persons which if carried out would be in restraint of trade, increase the cost of any article of consumption to the public, be declared unlawful and that each and every person or combination guilty should be penalized."

have been the product of abnormal conditions, while the price-level of pre-war times was the natural result of the free-play of all economic forces over a prolonged period, and nothing is more certain than that, given similar conditions permanently, economic laws will tend to repeat similar results.

Wages and Prices After Civil War

One reason given for holding that the old price-level never will return is that labor has become highly organized and never will consent to lower its standard of living. It is also pointed out that wages were not reduced to the pre-war level after the Civil War. It is pertinent to say as to the last argument, that prices were reduced. Wages depend at last upon production, and if production can be increased in the coming years as it was after the Civil War, so that goods are cheapened, consumption increased, and the demand for laborious increased, not only will there be no occasion to reduce wages, but it would be impossible to do so even if labor was unorganized.

Wages and Living Standard

On the other hand, unless production is cheapened, the standard of living is not raised for the wage-earning class by pushing up wages, because the cost of living rises with them. It is perfectly futile—foolish to look for any general improvement of social conditions by merely raising wages in terms of money. To talk about it is nothing but a habit of mind.

There are no gains from raising money-wages, except as there are inequalities in the advances, some groups of workers getting their compensation raised at the expense of others. Such benefits are not their general nor permanent, for in the long run the economic law will find a way of equalizing conditions.

A Sound Basis for Prosperity

If we accept the very substantial revival which has taken place this year as a natural recovery from an excessive curtailment of industry in 1921, and a natural result of progress made in restoring the equilibrium between the several branches of industry, by reductions in some quarters and advances in others, and if we endeavor in a spirit of harmony and co-operation to reduce the competition to a normal level, in order to obtain such a free and full interchange of goods and services that everybody shall be employed and production shall be to the limit of capacity, we may hope to have a better year in 1923 than in 1922. That is the method by which prosperity is achieved.

On the other hand, if the public generally does not possess of the idea that a better is coming, and is willing to borrow and spend upon that belief, it is possible that a short course of inflation may be the result.

It also recommended that a committee on industrial co-operation be created to investigate plans to end industrial strife, either by mediation or arbitration and recommended to the board of directors of the congress such plans as its investigation shall show to be advisable.

The Old Year and New.

Different nations began the year at different times. The Romans started it with March 1, the Macedonians in September, the Aztecs on February 28, the Athenians in June and the Persians on August 11.

Seeking Kind Words.

"Henrietta," said Mr. Meckton, "if I become a candidate will you make speeches in my behalf?" "Of course, Leondas." "Then I am going into politics. I think I'll feel more encouraged when you're talking about me than I do when you're talking to me."

KNOWLEDGE IS POWER IN PRESCRIPTIONS

Without knowledge, the only power in prescriptions could be that of harm. Knowledge permits proper selection of high quality drugs. Let us fill your prescriptions for that knowledge which is power in medicine.

Hosiery

Whether occasion demands fine Woolen Hose or sheer Silk, you can make satisfactory selection here, for our collection embraces all that's newest and best.

Lytle Bros.

Original Use of Word "Dope."
The word "dope" as applied to drugs comes from the Dutch "doope" which in English, originally meant a thick liquid or semi-liquid. It was first applied as a term for the treacherous preparation of the opium smoker.

Work and Play.

It is a mistake to suppose that play is the reward of work; it is merely its preliminary, and the country that cannot get its games going will not get much else going, either.—James Stephens.

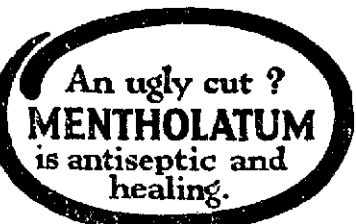

Light Heart Goes With Innocence.
Light-heartedness is the gay companion of innocence; and when innocence goes, they soon trip off together looking for something younger.—Sir J. M. Barrie.

Tea Grown in Pennsylvania.
Pennsylvania has a tea crop in the vicinity of the Blue mountains region which largely supplants Oriental tea in that district.

Housefly Quick Thinker.
The housefly is the cleverest of insects, its intelligence surpassing that of the ant and the bee. An authority asserts that it can think 100 times quicker than a man.

WANTED, SALESMAN

Energetic man, between 28 and 45, desirous of establishing himself in a business where results mean dollars. Experience not so necessary as a willingness to learn. Special course in salesmanship given the one proving satisfactory. Salary and commission, which will be confidential, giving brief history of past business experience to F. W. Ries, Jr., 407-459 Union Arcade Bldg., Pittsburgh, Pa.

NOTICE

A pie social Friday night the 13th

Evilently Christians.

An American family living in China recently hired two servants from Nan King, a missionary center. Accordingly, the new servants were Christians. Another Chinese servant in the family discovered the newcomers' religion and reported the fact to his mistress. Asked how he knew the new boys were Christians, he said: "Oh, they know all about God, Jesus Christ, and Santa Claus."

The Caterpillar Post.

France, in the middle ages, had a remarkable method of dealing with plagues of caterpillars. In 1129 the Bishop of Laon pronounced a solemn sentence of excommunication against caterpillars and grasshoppers.

Father Should Know.

All were quiet in the cinema watching a comic character counterfeiting intoxication. The silence was broken by a small boy's shrill voice. "That ain't the way to be drunk, is it, far-vee?"—London Morning Post.

Wrong Never Pays.

It is vain to trust in wrong. As much of evil, so much of loss, is the formula of human history.—Theodore Parker.

OUR SANDWICHES INCLUDE A WIDE VARIETY ALWAYS

There's always a wide variety of fillings for sandwiches here and you'll find that there's a wholesomeness to them that you are going to enjoy.

Drop in some time and see what dainty ones we are serving and taste the goodness of some of our milk drinks.

LEGAL

DIVORCE NOTICE

In the Court of Common Pleas of Clearfield County, Pennsylvania: Ruth Elizabeth Wagner vs. Sept. Term, vs. Clair Wagner. 1922.

You are hereby notified that the undersigned commissioner, appointed by the Court to take the testimony in the above stated case and report the same to the Court, with form of decree, will sit for the purpose of his appointment, at his office in the Clearfield Trust Company Building, at Clearfield, Pennsylvania, on Friday, the 3rd day of November, 1922, at ten o'clock A. M., when and where you may attend if you think proper.

GEORGE R. BIGLER,
Commissioner.

CHARTER NOTICE

Notice is hereby given that an application will be made to the Governor of the State of Pennsylvania on November 14, 1922, by Joseph Boron, John Boron, T. C. Richards, et al, under the Act of Assembly of the Commonwealth of Pennsylvania, entitled "An Act to provide for the incorporation and regulation of certain corporations," approved April 29, 1874 and the supplements thereto, for the charter of an intended corporation to be called CONTINENTAL BITUMINOUS MINING COMPANY, the character and object of which is for the purpose of mining, quarrying, stripping and otherwise producing coal, fireclay and other mineral substances incidentally developed; the buying and selling of coal, fireclay and other mineral substances; the transporting of the same to market and the acquiring, holding and disposing of real estate by sale, lease or otherwise as may be necessary from time to time for the proper business of said corporation, and for these purposes to have and possess and enjoy all the right, benefit and privileges of the said Act of Assembly and its supplements.

MILLER & HARTSWICK,
Solicitors.

Italy Leads in Violins.

The best violin strings have always come from Italy. Why this should be is something of a mystery, but in the making of strings, as in the making of violins, Italy has always led the world.

Merely Shifts It.

The man who doesn't want any trouble and endeavors to smooth things so he will have none, not infrequently mixes the dope for some one else.—Exchange.

So Different From Hers.

Edith—"Jack wants me to set the date for our wedding." Miss Flynt—"Goodness! Do your fiancés take their engagements as seriously as that?"—Boston Evening Transcript.

Philanthropy.

Philanthropy is never so mighty as when she seeks to achieve her lofty ends by means in harmony with her own spirit.

First American Marriage.

The first Christian marriage ceremony in the American colonies was performed at Jamestown in 1609.

A Test of Strength.

To demonstrate the strength of a certain make of writing paper, five girls grouped themselves on a beam suspended from a single screw of the paper. The total weight it supported was 760 pounds.

At Least, she thinks so.

The trouble is, if he has discretion enough not to write her letters that can be used in court, he doesn't have her enough to be convincing.—Exchange.

Loss by Evaporation.

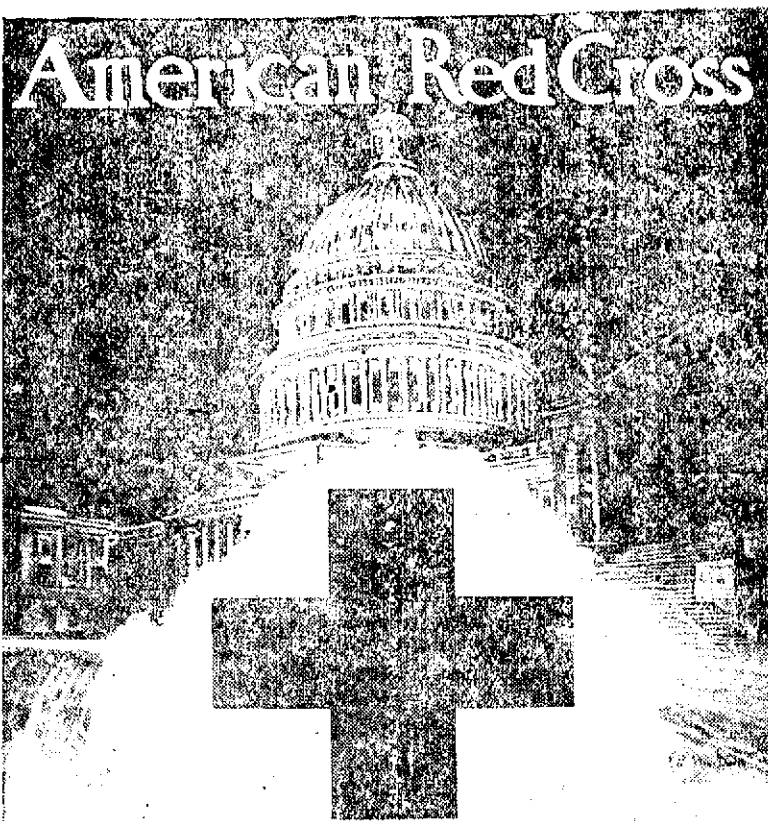

The volume of gasoline that is lost by evaporation in one stage in the handling of crude oil is equal to one-thirtieth of the country's annual gasoline production.

Honor Belongs to Providence.

Providence was the first city in the United States to have open air schools.

Striking New Red Cross Poster

American Red Cross

Chartered by Congress
To Relieve and Prevent Suffering
In Peace and In War
At Home & Abroad

Riveting the attention of the beholder on the fact that the American Red Cross is chartered by Congress as an official volunteer relief organization the dome of the Capitol at Washington, upon which is superimposed a large Red Cross, is the central figure of a new poster for the Annual Red Cross Roll Call. The poster, which has been pronounced one of the most striking of innumerable representations of the famous dome, is the work of Franklin Booth, a New York artist of wide renown. It will be displayed throughout the country during the Roll Call period, Armistice Day to Thanksgiving, when the Red Cross membership for 1922 will be enrolled.

Junior Red Cross Praised for Work Influencing Peace

The advancing standard of the Junior American Red Cross made two outstanding gains during the last year—one in the field of domestic activity, which is rapidly linking up the schools with the Junior program, the other a gain of a dozen countries in Europe pledged to organize Juniors on the lines of the American organization. For this accomplishment the American Juniors earned the hearty endorsement of the League of Red Cross Societies for its "vention of an international spirit of human solidarity among young people with a view to preparation of a new civilization for peace."

The first annual report of the American Red Cross for the year ended June 30, 1922, will show 24,528 schools enrolled, with a total of 448,843 pupils wearing the "I Serve" button of the American Junior Red Cross—the badge of unselfish service earned by each individual member through personal sacrifice.

In international school correspondence 736 classes and schools engaged in friendly communication with 623 schools in European countries, 10 schools in United States territories, 17 in South Africa and 10 in a miscellane list of foreign countries. The work in foreign fields in establishing playgrounds, school libraries, sewing and manual training classes, homes for war orphans, school reconstruction in devastated areas, encouraging community gardens and many other activities was financed through the National Children's Fund raised by the Juniors at a cost of \$382,277.40. During the year \$36,227.75 was contributed toward the fund, in which on July 1 there was a balance of \$201,361.58.

Greatest Mother Summons Her Children

An allegorical concept of the Red Cross as a peace-time ideal is employed by the American Red Cross in a new and striking poster for its Annual Red Cross Roll Call. Spread out before the heroic size figure is the outline of the United States with a Red Cross superimposed upon it while around its borders are sketched scenes depicting the chief activities of the Red Cross today—service to disabled veterans of the World War, disaster relief and promotion of the public health. The poster is the work of Lawrence Wither, a New York artist and will be displayed throughout the country during the enrollment of the Red Cross membership for 1923.

WORKMAN'S BREAD

ANYWHERE THESE DAYS.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The Ladies Adult Bible Class of the Methodist Episcopal church will hold a food sale on Saturday afternoon, October 14th, at Way's Stationery store, State street.

Mrs. Henry Stockbridge, who has been visiting with her daughter, Mrs. A. B. Ammerman, on South Side for several months past, left yesterday morning for Pittsburgh, where she will remain some time with her son Fred Stockbridge, who is a conductor on the Pennsylvania railroad running on the main line.

Mrs. Merritt Caldwell left Curwensville on Tuesday for Lancaster, Pa., to attend a Sunday school convention as a delegate.

Rev. and Mrs. J. C. Collins went out to Bloom township yesterday and sang at the funeral of the late Oscar Bilger. Mr. and Mrs. Harry Bilger and Mr. Reuben Bilger were also attendants. Rev. Collins made the opening prayer, after which Mr. Hollopeter, of Rockton, a member of the Brethren church, preached the funeral discourse. All of the deceased's brothers, with the exception of one who is in New Mexico and could not reach here in time, were present as was also his only sister, Mrs. Alice Shaffer, who resides in the west. His was the largest funeral ever attended by residents in the Greenville section.

George L. Benner, who for seventeen years was superintendent and manager of the Raftsmen Water Company, has resigned from that position. Mr. Thompson the new owner, assuming that duty himself.

A scarlet fever card has been posted at the home of Walter Bennett, on upper Ridge avenue. The family have been quarantined.

Curwensville had a trio of prominent visitors yesterday in the person of Dr. Butler, of Des Moines, Ia.; Dr. Townsend of Detroit, Mich.; and Rev. Dr. E. E. McKelvey, of Bellefonte. The gentlemen are making a whirlwind circuit for the purpose of raising money for the support of Dickinson College. They met with considerable success on their subscription list, one citizen donating \$500. They expressed themselves well pleased with the town's appearance and the hearty and welcome reception tendered them while in town.

A car labeled "Ford City Fishing and Hunting Club" passed thru this village yesterday afternoon. In the wagon sat four gentlemen who inquired the route leading to the mountains out Penfield way. They contemplated locating a site for a hunting camp, which will be occupied during the deer hunting season.

Scott McFadden, Grampian road, has purchased a new Ford. Dr. Miles Wall, Walnut street, has also invested in a new two seated Studebaker.

Mrs. Linn Faust, of Wilkinsburg, Pa., is spending the week in the home of Mrs. Aggar Bloom, corner George and Thompson street.

Miss Irene Sykes, daughter of Mr. Mrs. J. W. Sykes is ill at the home of her parents on North Thompson street.

New shipment of Sport and Trimmed Hats Received today.
10-12-12 pd

THE HAT & GIFT SHOP

Joshua Sipes Post No. 505, American Legion, held an interesting session Tuesday evening. Several questions were discussed at length pertaining to the welfare of the Post for the year. Among other business transacted was the nomination of officers. Three members were nominated for

the post of Commander, Geo. L. Kitzberger, Jr.; James Booth and William Frank; for vice-commander, C. M. Ammerman, Paul G. Robinson and Ed. G. Norris; adjutant, C. H. Ammerman and Miss Mary Shearer. A petition signed by a large number of public school pupils and others, asking that the Legion rooms be turned into an "open house" during the winter months was granted and the doors will be open to the public commencing on Saturday evening. A number of applications for membership was received and turned over to the proper committee. The Post endorsed the American Educational system and will co-operate in advancing the same to a higher plane. Plans were discussed by which the social conditions of the town could be bettered and arrangements made by which the young people can meet socially and spend an hour or two in harmless amusements and recreation during the long approaching winter evenings.

Prof. Grant Norris, the hard working principal of our town public schools, will address the Parent Teachers' Association at Houtzdale on Friday evening of this week. If the citizens of that town and region round about desire to hear something very interesting and profitable to themselves they should turn out en masse to hear him.

Miss Laura Walter, English and Latin teacher in the High School, no providential interference, expects to spend the week end with her parents and friends in East Freedom, Blair County.

Miss Mildred E. Tate, one of the instructors in the High School building, contemplates spending several days the latter part of the week with her parents at Duncansville, Pa.

The football squad will meet Hollidaysburg on Saturday of this week on the home field. The boys are deserving of a rousing crowd at this game. Let all turn out and show them that we appreciate the way they lost at Williamsport and Indiana. Our team is in the very best of repute and if the people will come out to the game on Saturday afternoon they will see some nice foot ball work.

Four air planes passed over this place yesterday afternoon in a bunch. They must have gotten away from regular route for they came back

and made a semi circle working their way further north. The machines made noise enough for a train load of coal passing over the B. & P. head bridge at foot of State Street.

Harold Smith, District Deputy of Illini tribe No. 362 assisted by Great Prophet Carl B. Peters and Great Samnap Dewey Hummel, installed the following officers in Illini tribe No. 362 I. O. R. M. last evening: Prophet, Ernest Wise; Sachem, Ellis Cook; Junior Sagamore, Blaine Cleaver; Junior Sagamore, Frank Harley; 1st Samnap, Miles Sarvey; 2nd Samnap, Ray LaPorte; 1st Warrior, Chas. Williams; 2nd Warrior, Harry Bloom; 3rd Warrior, Carl Bunnell; 4th Warrior, Geo. Kaut; 1st Brave, James Rider; 2nd Brave, Ray Smith; 3rd Brave, Walter Fullerton; 4th Brave, George Phillips; Guard of the Forest, Lloyd Burger; Guard of the Wierwand, James W. Gert.

The following letter to Mr. and Mrs. M. A. Caldwell will explain itself:

At a meeting of the Curwensville Teachers' Association, October 9, 1922, a resolution was unanimously passed thanking Mr. and Mrs. M. A. Caldwell for the delightful and interesting presentation of a Greer song Club. No one before have branches of such a club manifested in such a delightful and enjoyable way. Your kindness, consideration and hospitality have reached us beyond the expression of words. We are glad to have you as our dear friends, for this you have been, and for this life-giving episode please accept our heart-felt gratitude.

The above letter was signed by every teacher of the Curwensville Schools. Mr. and Mrs. Caldwell have made themselves very popular to the teachers. Mr. James Shoridan, our popular grocer, contributed very materially to the enjoyment of the occasion. He too, came in for a vote of thanks to be delivered by Mr. Tate, Miss Calgrove and Miss Whitaker. These teachers have not flattered us with a copy of their resolutions, but doubtless it was as heartily worded as the above letter to Mr. and Mrs. Caldwell. Prof. Norris says that such meetings give more of the human touch to the school work and brings the teacher to a more direct appreciation of nature and child life.

Nature Has Made Provision.
Animals get enough nitrogen from the air to protect nature's balance. Growing plants and animals, by the most remarkable harmonic processes in nature, maintain the proportion, oxygen in two pounds of air 23 and nitrogen 77. Man cannot disturb this ratio by little nitrogen concentrators.

Sun Worshiped in Early Times.
Centuries ago the sun was worshipped by practically every race on the face of the earth. Babylonians, ancient Egyptians and Armenians, Assyrians, Aztecs, Etruscans, Americans and several others had their own sun gods.

Today.
There is a thing called yesterday, but that is only the dust-bin at the door into which we cast our refuse, our old sins, our worn out souls. There is a thing called tomorrow, bursting with far better things than those which we have discarded. But in today the whole passionate force of the universe is poured, and therefore today is our chance. S. P. B. Mails.

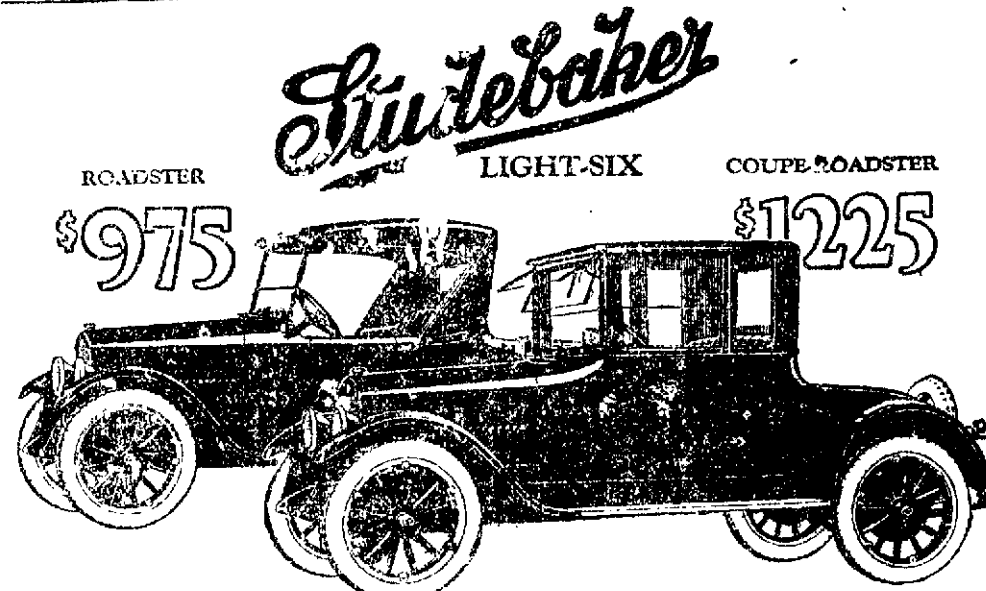

Civilization Unjustly Blamed.
Decayed teeth have been found in a skull thousands of years old. Impacted wisdom teeth can be found in skulls taken from the shell mounds around San Francisco Bay and exhibited in the ethnological museum of the Associated Colleges. The theory that civilization causes such troubles is no sounder than the decayed notions.

For Steaming Eyeglasses.
When going into a crowded room in cold or damp weather, eyeglasses steam so that it is almost impossible to see. If rubbed with vasoline and cleaned well, the glasses will not gather this moisture. From the Designer.

THE OLD HOME TOWN By Stanley.

THERE'S A LOT OF FOLKS BUYING
WORKMAN'S BREAD
THESE DAYS THAT NEVER
BOUGHT IT BEFORE. THERE'S
A REASON.

The Studebaker Light-Six Roadster and Coupe-Roadster were primarily built for business use. In meeting the urgent demands of business, they naturally have fulfilled the needs of the small family.

Each is built for hard usage, day in and day out. And as they are completely Studebaker built—you know they will stand up under hard going.

The bodies are attractive, roomy and thoroughly comfortable for all-day travel. Ample

luggage space is provided under the rear decks.

There's an internal hot-spot to reduce gasoline consumption to a minimum. Valves are inclined at a 20 degree angle to give a new measure of power, greater flexibility and better acceleration. Crank shaft and connecting rods are machined on all surfaces, thus eliminating vibration and insuring longer life to the motor.

Studebaker low prices are made possible by great volume and complete manufacture. Studebaker quality is traditional.

The Studebaker Light-Six Coupe-Roadster seats two passengers; has side coach lamps, rain wiper and windshield wiper, eight-day clock. The three-passenger Roadster has cow lights, storm curtains open with the doors; large plate glass window, rear curtain, and inside and outside door handles. Both models are upholstered in genuine leather; have ample space under the rear deck for luggage; ignition and thief-proof transmission locks, and cow ventilator.

Awful.
A woman at Wilkesden, called to speak regarding the character of another, declared: "She is most awfully respectable—awfully so."—London Tit-Bits.

Hint for Amateur Painters.
When painting or varnishing soft wood, always first paint the wood with shellac and let it dry before painting or varnishing. This saves about half the paint and gives a much harder and smoother surface to the wood.

OXIDAZE

TABLETS
Made With Essential Oils
For

Politicians -- Auctioneers
Clergymen -- Lecturers
Singers

Anyone who speaks or sings in public whose voice is apt to grow husky or weak from the strain, will find that one Oxidaze tablet slowly dissolved in the mouth before speaking or singing, will make a world of difference. The voice stays strong and clear and natural even during an unusual strain.

Thousands of people have testified to the remarkable value of these pure essential oil tablets, which bring such quick relief in cases of Hoarseness, Loss of Voice, Soreness, or Ticking in Throat, Bronchitis, Bronchial Irritation, Bronchial Asthma, Coughs, Colds, and as a preventative against Grippe, Influenza and Pneumonia.

One small inexpensive package of "Oxidaze" tablets will quickly prove the value of pure essential oil in cases of this kind; if they are always kept in the house for use in case of emergency, they may save you many days of serious illness or discomfort. Bloom's Drug Store or any good druggist can supply you.

FLAPPERS OF 1922 WILL MAKE GOOD MOTHERS

By LUCILE F. SAUNDERS
(United Press Staff Correspondent.)
New York, Oct. 11.—"Flappers are going to make good mothers for the coming generation."

This is the declaration of Miss Marjorie Martin, the young Brooklyn woman who has just been made head of the First National Standardized Health Exhibit put on this month. She is the first woman to hold a national post of this character.

"I haven't a single 'don't' to lay down to the modern girl."

"I can't understand why we have all this worrying about Mother Nature not keeping on the job. The good wins out and our exhibit is just to show how to help the cause along."

"The mother of the future is going to be better than the girls of the sixties, who thought it improper to have limbs, to say nothing of exercising them."

"The tomboyish reaction of the flapper is wholesome after the era of sophistication we have had."

Miss Martin admits that if she has no "don't," she has a list of "do's" suggestions. Here are some of them:

"Do take as much care of your body as you would of your flivver and when a nut or a bolt gets loose use proper tools to get it back in place."

"Do get back to the ideals of simplicity of two centuries ago."

"Do give your skin the same chance to breathe as your nose. You wouldn't put clay there, so don't wonder about

it if your plastered complexion gives up the ghost."

"Do oil your crank shafts and brain cells with good books and good music. Health is not only bodily comfort, but contentment and peace of mind."

"Do get out of doors enough. The health of Brooklyn must have improved 150 per cent, when we had a street car strike and the people had to walk. The most pernicious habit in America is spending that extra five minutes dallying at the office so you have to take a car for a short run."

"And as for the married couples, do have the grit to begin where your father and mother began instead of waiting until middle age to begin where they left off."

Miss Martin thinks the future generation is going to be the most beautiful the world has ever known because it knows how to take care of itself. Most of the real faults of flapperism she blames on parents.

"So far as booze is concerned," she said, "what can you expect of them when their own fathers and mothers are such persistent lawbreakers that it seems smart to indulge."

"Cigarette smoking did not start with this generation, nor will it end here. It will quit of its own accord when the medical profession has learned the exact amount of harm it does."

"Girls are even more sensible about what they eat. The idea that they lunch on ice cream sundaes, belongs in the same class with the mother-in-law joke."

Pennsylvania, the condition last year and the ten year average condition on October 1 are as follows: GRAPES 90, 40, 73; PASTURES 65, 81, 87; CLOVER SEED 80, 69, 67; FIELD PEAS 82, 91, 89; FIELD BEANS, the average yield of grain this season is estimated at 90 per cent of a normal as compared with 93 per cent last year and 85 per cent, the average yield for the past ten years. The yield of forage this season is estimated at 100 per cent of a normal as compared with 98 per cent last year and 90 per cent, the average yield for the past ten years. The average harvested is estimated the same as a year ago. TOMATOES. The yield this season is estimated at 98 per cent of a normal as compared with 92 per cent last year and 86 per cent the average yield per acre this season is estimated at 61 tons as compared with 5 tons last year and 51 tons, the average yield for the past ten years. The average harvested this season is 112 per cent of last year's average. ONIONS. The yield of this season's crop is estimated at 200 bushels per acre as compared with 134 bushels last year and 193 bushels the average yield for the past ten years. The average harvested this season is estimated at 5 per cent more than last year.

First Steam Transatlantic Trips.
The American vessel Savannah, 6,600 tons, crossed the Atlantic from Savannah, Ga., to Liverpool in 1819 in 29 days 11 hours. The trip was made partly under steam but mainly by sail. In 1833 the Royal William, of 830 tons, built in Canada, made the first transatlantic voyage entirely under steam.

Grasshoppers' Favorite Diet.
When various spring grains are available the grasshoppers prefer oats to any of the others, reports a United States Department of Agriculture investigator in Montana. However, when food is scarce the hoppers will not go far out of the way to search for the plants that please their palates most.—Agricultural Department Bulletin.

Ants Too Much for Steeplejack.
Ants were swept up by the bushel at Shaleford, near Aldershot, on Saturday. They had been smothered out from the church spire, where they had prevented the work of the steeplejack who was carrying out repairs.—London Times.

Idle to Remember Past Lapses.
Act up always to your convictions, and when you have been unfaithful bear with yourself, and resume always with calm simplicity your little task.—Madame Guyon.

The "Lantern Cooler's" Profession.
Among the theatrical agencies when talent is to be employed for all occasions a new calling is that of "lantern cooler." What is meant is that in some small movie shows a variety turn is put on between the reels, whilst the projector recovers from a passionate six reel film.

First Step Important.
We are masters of our first step and slaves of our second.—Prof. Fried rich Nietzsche.

First Taste of Cocoa.
The manufacture of cocoa and chocolate, one of the principal industries of Holland, was introduced into that country as long ago as 1679.

Ocean Reclaiming Island.
Rockall, a small island 250 miles north of Ireland, has sunk three feet in the last 33 years.

"The French Fury."
"The French Fury" is a name given to a treacherous attack on Antwerp by four thousand French soldiers under the Duc d'Angoulême January 17, 1858. The citizens repelled the attack, killing about one-half the French and taking the rest prisoners.

First Step Important.
We are masters of our first step and slaves of our second.—Prof. Friedrich Nietzsche.

First Taste of Cocoa.
The manufacture of cocoa and chocolate, one of the principal industries of Holland, was introduced into that country as long ago as 1679.

**GLASS OF SALTS
CLEANS KIDNEYS**

If your Back hurts or Bladder bothers you, drink lots of water.

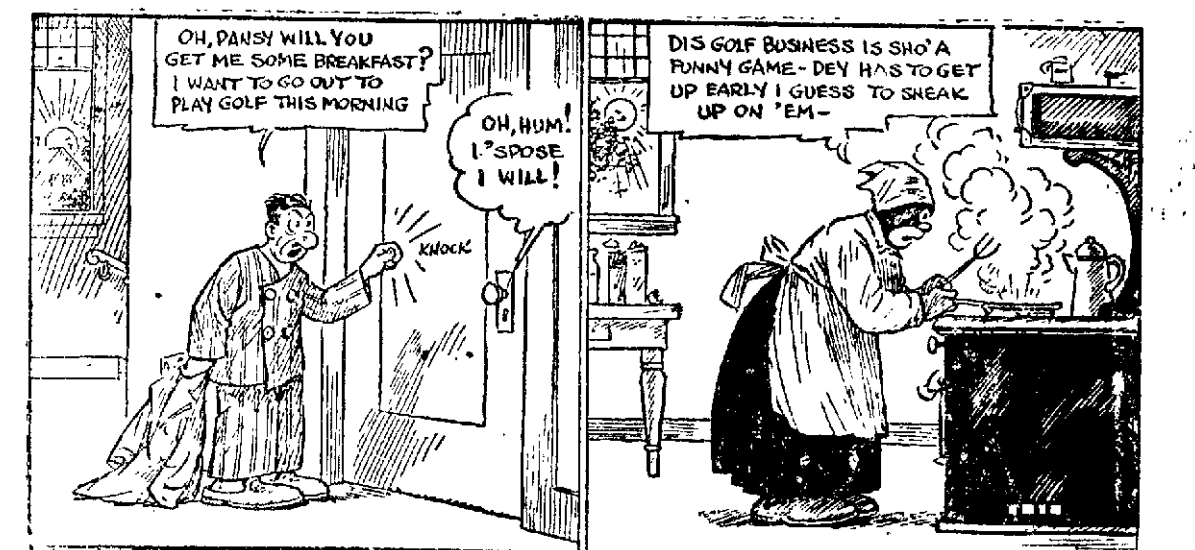

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid waste so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it is no longer a source of irritation, thus often ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Reduce Your Production Costs

Farming, like every other business, must cut down the overhead. It is not a question of being able to afford a Fordson; it is a question of being able to continue farming on the old too costly basis. The farmer's problem is not all a sales problem; it is also a production problem. He must cut down the cost of production. The Fordson does more work at a lower cost and in less time than the old hand methods. Let us give you the proof. Write, phone or call today.

CROP REPORT

September was unusually dry and all crops have suffered to some extent. Corn ripened in advance and will result in some loss of weight. There has been very little damage from frost. Fall plowing is progressing but has been somewhat retarded by dry weather, according to the report issued today by G. L. Morgan, U. S. Agricultural Statistician, Bureau of Agricultural Economics.

CORN
The condition of the crop on October 1 was 84 per cent of a normal indicating a yield of 40.7 bushels per acre and a total production of 64,735,000 bushels as compared with 76,272,000 bushels last year and 63,707,000 bushels, the average production for the past ten years.

SPRING WHEAT
The preliminary estimate of the average yield per acre of this year's crop is 15 bushels and a total production of 225,000 bushels as compared with 225,000 bushels last year and 270,000 bushels, the average production for the past five years. The quality of this year's crop is 90 per cent of a normal as compared with 86 per cent last year and 90 per cent, the average quality for the past five years. It is estimated that 42 per cent of the total wheat crop has been marketed to October 1, as compared with 40 per cent last year and 28 per cent in 1920.

OATS
The preliminary estimate of the average yield per acre of oats this year is 32 bushels and the total production 39,618,000 bushels, as compared with 35,283,000 bushels last year and 38,906,000 bushels, the average production for the past ten years. The quality of this year's crop was 89 per cent of a normal as compared with 81 per cent last year and 89 per cent, the average quality for the past ten years.

BARLEY
The preliminary estimate of the average yield per acre this season is 24 bushels and the total production 288,000 bushels as compared with 280,000 bushels last year and 287,000 bushels, the average production for the past ten years. The quality of this year's crop is 92 per cent of a normal as compared with 90 per cent last year and 91 per cent, the average quality for the past ten years.

BUCKWHEAT
The condition of the crop on October 1, or at time of harvest was 82 per cent of a normal, indicating an average yield of 20.1 bushels per acre and a total production of 4,663,000 bushels as compared with 5,175,000 bushels last year, and 5,310,000 bushels, the average production for the past ten years.
